## SENSATIONAL END TO MURDER TRIAL

**Sheriff Accused of Packing Jury to Try Mrs. McRea Yesterday.**

### STATE MADE SERIOUS CHARGE

**Court Asked to Dismiss Special Venire of 150 Men—Sheriff to be Held to Account—Accused Woman Confident.**

Opelousas, La., Octfl 24.—Developments of an unexpected nature, embracing sensational charges against Sheriff M. L. Swords, of this parish and involving the integrity of the special venire of 150 talesmen which the court had ordered summoned for jury duty, brought a sudden halt today to the trial of Mrs. Zee Runge-McRea for the alleged murder of Allen Thurman Garland. Immediately following these charges which were filed by the prosecution, counsel for the defense filed a motion that R. Lee Garland, district attorney, be barred from active participation in the trial.

Judge Pavy will announce his decision tomorrow. The charges against Sheriffs Swords will be taken up at once.

No progress was made today in the selection of a jury. The two jurors chosen yesterday are the only ones in the box.

At this juncture Acting District Attorney DuBuisson filed the motion for the dismissal of the special venire. In an affidavit he alleged that Sheriff Swords, in executing the court's order to summon the extra venire, had been accompanied by Pickens Butter, "a man identified with and actively engaged in assisting the defense of the accused."

"The mover, as the sworn representative of the State in this case," continues the affidavit, "has no confidence whatever in the fairness and impartiality of a venire of talesmen selected and summoned under such circumstances."

In a brief interview today with the Associated Press representative, Mrs. McRea expressed confidence in establishing her innocence.

The prisoner would not discuss the killing nor the incidents which caused her to shoot young Garland in her home here on September 21st last.

### NEGRO MURDERED HIS WIFE.

**Confessed When Body Was Found Buried in Yard.**

(Rocky Mount Record.)

Spring Hope, N. C., Oct. 21.—On yesterday afternoon this sction of the country was thrown into a state of excitement by the finding of the body of a woman buried in the yard of Arthur Wilkins. The body was later discovered to be that of Wilkins' wife, who had been missed from her home for the past three days and whom Wilkins said had gone away to visit relatives.

There were suspicious circumstances connected with the case and friends of the woman made inquiries at the place where the woman was supposed to have gone and discovered that she had not been there. An investigation was started and blood was found in the negro's yard and a little later the freshly broken ground indicated where the body was hidden. Soon as the discovery was made, Wilkins was sought out, taken to the spot where the body was discovered and charged with the murder, which he admitted. He was placed under arrest and the coroner notified. Dr. Battle went to the scene as soon as possible, but there was little for him to do as a confession had already been made. The man will in all probability waive a preliminary trial and the higher court will pass on the matter at its next meeting.

The colored people of the vicinity of the murder are highly excited and intensely aroused over the matter and for a time it was feared violence would be done the uxoricide. Both negroes were well known in the neighborhood and the fact that the body lay in the ground for three days without being discovered and not having proper burial has greatly incensed the colored friends of the woman.

### McSHERRY ALIMONY HALVED.

**Father May See Children Three Times a Year.**

Frederick, Md., Oct. 23.—By a decree of court J. Roger McSherry was today granted a modification of a former decree pertaining to the alimony he must pay his former wife. Under the new decree he must pay $50 a month and he was granted leave to see his children three times a year.

In 1909 a decree was passed requiring Mr. McSherry to pay his former wife $100 a month. He appealed and carried the case to the Court of Appeals. The decision of the lower court was sustained. Later he asked that the decree be modified.

Mr. McSherry is required to give his former wife two days' notice of his desire to see his children, and shall see them at the home of their mother in Baltimore and shall not be allowed to take them outside of Maryland. The decree states that his seeing the children is upon condition that they shall not be brought in contact with his present wife.

## TURKS AND ARABS ATTACK ITALIANS

**Fierce and Picturesque Battle at Tripoli Last Sunday.**

### SEVERAL HUNORED KILLED

**All Casualties on Part of Turks—Italians Bombard Benghazi and Killed 400—Losses of Italians Evidently Suppressed.**

Tripoli, Oct. 23., Delayed in Transmission. — The combined attack of Arabian horsemen and Turkish cavalry against the Italian lines yesterday (Sunday) morning was both picturesque and fierce. The main attacking force was assisted by Turkish infantry, and small guerilla bands of Arabs, who delivered a galling fire from the shelter of trees. The Italians withstood the shock and then repulsed the attack, eventually surrounding and capturing several hundred. The enemy lost several hundred dead and many wounded. The Italian loss was not serious.

Advices from Benghazi say that the Arabian and Turkish losses in the engagement which followed the Italian disembarkment at that place are esmated at 400 dead and from 800 to 1,200 wounded.

Mail advices received at Malta yesterday throw a somewhat different light on the fighting in Tripoli, indicating that the dispatches, like the above from Tripoli, direct, are censored by the Italians, which may explain the absence of details regarding the Italian casualties.

### McNAMARA TRIAL.

**Conversation Led to Excuse of Juror and a New Witness.**

Los Angeles, Cal., Oct. 24—A chance street conversation started by B. W. Clark, a venireman in the McNamara murder case with Harry Chandler, vice president and assistant general manager of the Times-Mirror Company, and son-in-law of Gen. Harrison Gray Otis, publisher of the Los Angeles Times, brought Clark's services as a prospective juror to an abrupt end when he told about it in court today.

The talesman was censured by Judge Walter Bordwell for carelessness and excused on a challenge by the defense, suggested by the court.

Chandler, according to Clark, had said he hoped the talesman would qualify as juror. It was said that Chandler was held responsible for the occurrence, so far as the court was concerned.

In the course of his examination Clark gave the defense a clue to a new witness, who, it is said, would be summoned. His son, he said, had told him the explosion was unquestionably one of gas, having smelled the gas a block away. It was said that 14 men would hear the McNamara case as jurors. This is possible under California laws which provide in addition to the regular jury that two additional jurors may be qualified in cases where the trial is likely to be of great importance and duration.

None of the 14 seemed in sight tonight. Six jurors temporarily accepted by both sides were in the box, but all are subject and liable to peremptory challenge.

### GEYSER AT ROUND KNOB.

**New Yorker Restores It and Water Will Soon be Flowing.**

Washington, Oct. 24.—Referring to recent publications relative to the restoration of the large fountain or geyser which for many years played at Round Knob, N. C., in sight of passing trains on the Southern Railway, President Finley said:

"There seems to be some misapprehension as to the restoration of this geyser. On a trip which he made through western North Carolina several months ago, Mr. George F. Baker, of New York, noted that the geyser was no longer flowing.

"Inquiries having satisfied him that it would be practicable to restore it, he arranged to have the work done entirely at his expense as a testimonial of his high appreciation of the great service rendered by his friend, Col. Alexander B. Andrews, of Raleigh, N. C., first vice president of the Southern Railway Company, in the development of western North Carolina.

"The work of restoration is now under way and the new geyser will soon be in operation, throwing a column of water 250 feet in the air."

### $75,000 HOTEL FOR COLUMBIA.

**Grehams to Erect Fine Structure Near the Union Station.**

Columbia, S. C., Oct. 24.—Plans are being drawn for a seven-story hotel, to cost not less than $75,000, which the Gresham Hotel Company, now forming here, will build at once within one block of the union passenger station. Every room will have a private bath.

Thee Grshams are said to contemplate the erection of a large hotel at Greenville also. They now operate hotels in Charlotte, Spartanburg, Asheville, Florence, Laurens, Charleston and Savannah.

## DR. COOK HISSED BY ANGRY DANES

**Tried to Lecture at Copenhagen on Pole Discovery.**

### WAS CALLED PURE SWINDLER

**Mob Made It So Hot for Him He slipped Out at Back Door---Meeting Was Exceedingly Turbulent Threats of Violence**

Copenhagen, Oct. 24.—Dr. Frederick A. Cook's theatrical attempt tonight to vindicate his reputation by a lecture in the hall where two years ago he addressed the royal family and some of the most prominent people of Denmark under the auspices of the Geographical Society on the occasion of his triumphal entrance into the capital, resulted in extremely riotous scenes. Dr. Cook finally was compelled to retire ingloriously by the back door.

Ever since it was announced that Cook was returning here to lecture, the newspapers and the people have been strongly stirred, and threats of violence were freely circulated. Fifteen hundred persons assembled in the hall tonight, and a great crowd outside greeted Dr. Cook with an uproar of insulting cries. He was escorted by police, however, and no violence was attempted.

The meeting within the hall was turbulent throughout. A small fraction of the audience supported Dr. Cook and applauded his efforts. Others hissed continually, with the result that the two sides almost came to blows.

The lecture, illustrated by means of lantern slides, was for the most part a repitition of his former talk.

Dr. Norman Hansen, the Danish explorer who formerly supported Cook, started trouble by loudly denouncing Cook as a pure swindler. The climax was reached when an alleged picture of the North Pole was thrown upon the screen. The audience was so hostile that Cook stopped his lecture and withdrew. He was escorted by a strong detachment of police to his hotel through the side streets.

### BARS MISS ALDRICH AT HOP

**Watchman Makes Senator's Niece Victim of New Rule at Annapolis**

Annapolis, Oct. 23.—A niece of former United States Senator Nelson W. Aldrich, of Rhode Island, and several of her society friends, who came here in a private yacht, were excluded last night from the Naval Academy hop by the new "Rule of Three" or "Social Code" regulation.

This is the rule arranged by the officers of the academy to limit the number of invitations which a midshipman or cadet may issue each year to girls for hops and other social entertainments on the academy grounds.

Miss Aldrich and another young woman and their chaperon—all three in ball gowns—arrived with their escorts at the entrance to the gymnasium where the hop was to be held at 8 P. M. They started to pass through when a watchman said, "Your ticket, please?"

"Why," said one of the men, "we are to meet two midshipmen inside and we have no tickets."

"My name is Miss Francis Aldrich, niece of the senator of the same name," said one of the young women. "Surely, I may go in to a hop here with my friends as the guest of midshipmen. I suppose the tickets slipped their memories."

"You cannot go in," said the watchman. They then hurried from the yard, and entering a carriage they had left at the gate, were driven away.

### GLIDDEN TOUR IN GEORGIA

**Enthusiastic Welcome at Macon and Cordele—Gov. Smith Speaks**

Cordele, Ga., Oct. 24.—With cheering crowds lining the streets, the Glidden tourists reached here this afternoon after a successful run from Atlanta. Bright sunshine and felt roads made the day's journey one of the best of the tour. The noon control was at Macon where the tourists spent a couple of hours. They were met several miles outside of Macon by about one hundred cars which piloted the tourists into the city. The Gliddenites were entertained here tonight at the Elks' Club with an elaborate luncheon. Governor Hoke Smith accompanied the tourists here and made an impromptu speech tonight on good roads. Tomorrow's run will be from here to Live Oak, Florida.

### TROOPS ARE RECALLED

**No Longer Necessary to Watch Mexican Frontier**

Washington, Oct. 24.—The War Department today recalled most of the troops sent into Texas during the Mexican revolution. The 17th Infantry is ordered from San Antonio to Fort McPherson, Ga.; 20th Infantry from San Antonio, to Fort Snelling, Minn.; 11th Cavalry from San Antonio to Fort Oglethorpe, Ga.; the company of engineers and the signal corps battalion from San Antonio to Fort Leavenworth, Kas. The 4th Cavalry, at Fort Bliss, and the 5th Cavalry at Fort Huachuca, will remain.

## BRING BODY BACK IN LINNELL CASE

**Taken to Indicate Uncertainty on Part of Prosecution at Boston.**

### RICHESON ISSUES STATEMENT

**Asks Church to Withold Judgment Until There is Investigation in Courts—Medical Experts to Testify.**

Boston, Mass., Oct. 24.—Removed today from th grave in the cemetery at Hyannis, the body of Miss Avis Linnell, for whose death by poisoning the Rev. C. T. V. Richeson, of Cambridge, is being held responsible, was brought back to Boston tonight by order of District Attorney Pelletier.

Uncertainty on the part of the prosecution as to the exact manner in which the young girl met her death is reported unofficially to be the reason for the sudden move, and the announcement by the district attorney's office that the government had enlisted five medico-legal experts gave some strength to this report.

Incidental to the examination of the body, the officials also will make a careful search of Miss Linnell's bath robe, which was buried with the body for anything which might have been used as a receptacle for the fatal powder she took. No definite statement as to just what is expected to be accomplished by the re-examination of the body came from the district attorney's office tonight.

The experts enlisted by the government include Dr. Timothy Leary, medical examiner for Suffolk county, and professor of pathology and legal medicine at Tufts Medical School; Dr. William P. Whitney, medico legal expert chemist of Harvard Medical School; Dr. Charles Sedgwick Minot, professor embryology at Harvard Medical School, and Dr. R. L. Emerson. Dr. Leary has had charge of the case since the discovery of the body, while Dr. Whitney has been at work for nearly a week on the stomach and other organs of the dead girl, preparing an analysis of their contents.

Richeson today addressed the following letter to his congregation at the Immanuel Baptist Church, Cambridge:

"Dear Brethren: I appreciate the position in which the church is now placed, but I ask its consideration until after the preliminary hearing, or, if the grand jury previously meets, then until that time. Most fraternally,

"CLARENCE V. T. RICHESON."

The next regular meeting of the church will be held Friday night, the day after the grand jury is expected to begin its deliberations. The letter probably will be read then, and it is possible the grand jury may have reached a finding that the church will be able to act on. The fact that Mr. Richeson asked consideration only after the grand jury meets was taken by his friends tonight as strong indication of his hope that the government will fail to make out a case against him.

Col. Thomas Varland Richeson, of Amhrst, Va., father of the prisoner, arrived in Boston this forenoon from his Virginia home and probably will visit his son tomorrow.

Minneapolis,, Oct. 24. — Having repeatedly declared he would kill President Taft upon the latter's arrival in Minneapolis tonight, Julius Bergerson, 52 years old, was placed in the county jail today following an inquiry into his mental condition. Declared insane, Bergerson will be held until transferred to the State asylum at Rochester. Before the commission it was testified that for a month Bergerson had been telling his friends he intended to kill the President.

## ATHLETICS WIN FOURTH WITH TIMELY BATFEST

### *Giants Started With a Lead, But Athletics Had a Batting Rally Touching Matty For Ten Safeties.*

Philadelphia, Oct. 24.—Hitting the great Mathewson to all corners of the field, the Philadelphia Athletics defeated the New York Giants at Shibe Park this afternoon for the third successive time by the score of 4 to 2, and the American League champions now need but a single game to again give them the world's baseball honors for the second year in succession.

The victorious team not only out batted the champions of the National League, but also outfielded them and showed more alertness on the bases.

It was a finely played game, sensational in spots, and gave the home crowd plenty of opportunity to cheer. New York getting the jump in the first inning, the Athletics came from behind and passed them in a fierce onslaught in the fourth inning, and were never again headed. Nearly 25,000 persons witnessed the contest.

Mathewson, the mainstay of the Giants, was fairly crushed under the fusillade of hits and at the end of the seventh inning he retired in favor of Wiltse. The latter pitched but one inning against the heavy-hitting Philadelphia team and escaped with one two-base hit out of four men up. Ten

CHARLES ALBERT BENDER.
Chippewa Chief.

hits for a total of 16 bases were made off Mathewson in six innings. In the seventh inning he gave his only base on balls to Baker.

"Chief" Bender, the Athletic's sterling pitcher, while he did not equal the wonderful game he twirled against New York on the opening day of the series, was never in trouble except in the first inning. New York got but seven hits off him, only two of them coming in one inning. He struck out four men and gave two bases on balls. In the opening round the top of the New York batting list jumped on the Chippewa in a manner that made the timid ones fear that all was lost. The great Indian settled down, however, after New York had scored two runs on a single by Devore, a triple by Doyle and a sacrifice fly by Snodgrass, and had New York at his mercy practically all the way.

Barry, the brilliant shortstop of the Athletics, was the star man at the bat. In four trips to the plate he ripped out a single, and two doubles, but none of his hits figured in the scoring. The sensational Baker came to time with a pair of two-base hits out of three times up and Murphy broke loose for the first time in the series and laced out two doubles that set the crowd wild with cheering. Captain Davis, substituting for the injured McInnis, also was in the big fourth inning when the Athletics passed New York by scoring three runs. It was in this inning that the greatest exhibition of hitting yet seen in the present world's series was given.

The only men on the Philadelphia team that did not get into the hit column were Oldring, Thomas and Bender. Oldring and Thomas, however, each had a sacrifice. Bender hit the ball to the infield in each of his four trips to the plate but made no attempt in any case to beat the ball to first.

For New York, Devore, Doyle and Fletcher showed best at the plate. Devore got two singles in four times up, Doyle smashed a triple in three times at the bat and Fletcher had a pretty pair of singles, but only Devore's hit and Doyle's three-base drive figured in New York's scoring.

New York started out like a winner in the first inning. Devore reached first on an infield tap and came all the way home on Doyle's triple to right center. The New York second baseman probably would have gotten only a single on his hit had not Oldring slipped in the soft turf of the outfield, the ball eluding him long enough to permit Doyle to pull up at third. Snodgras brought Doyle home with a long sacrifice fly to Lord. This was the end of New York's scoring.

The two-run lead looked big to the Athletic partisans, but the fighting Athletics kept pegging away at Mathewson. There were chances to score in the second and third innings, but it was not until the fourth that the American Leaguers showed their real batting strength. Baker, who struck out the first time up, caught one of Mathewson's outside curves and drove it to left center for two bases much to the delight of the crowd. Murphy smashed a two-bagger to left, sending Baker across the plate and Davis brought the spectators to their feet by driving a double to right field sending home Murphy with the tieing run, Davis moving to third on Barry's out and came home on Thomas' sacrifice fly to Murray.

In the fifth inning Collins singled to right field and came all the way home on Baker's two-base hit to right center. It was a great exhibition of running and his head work coupled with his fleetness won him a round of

## WOMAN MURDERED IN APARTMENTS

**Her Head Almost Severed From Body by Slash of Knife.**

### SUSPICIOUS NEGRO ARRESTED

**Claimed He Heard Cries and Noise in Woman's Room During Night —Theory of Suicide Has Been Advanced**

Indianapolis, Oct. 24.—How Dr. Helene Knabe, former State bacteriologist, found in bed today with her head almost severed by the slash of a knife, came to her death, remained tonight a mystery to the police. Jefferson Haynes, the negro janitor of the apartment house where Dr. Knabe lived, was detained on suspicion that he knew something of the circumstances of her death, but tonight the detectives let him go after he had withstood for hours their attempts to draw incriminating information. They were in the dark, they said, as to last night's tragic incidents in Dr. Knabe's flat.

The theory of suicide, put aside earlier in the day, was revived tonight, but the police declared the evidence tended to indicate murder. The knife with which Dr. Knabe was killed has not been found and the coroner and the police were of the opinion that if she herself gashed her throat she would not have had strength to have carefully hidden the knife and then returned to her bed. Further, there were no blood stains on the floor of her bedroom, save where blood had trickled from the wound, across the bed and dripped on the floor. The blow dealt was a powerful one, for the knife passed through the muscular tissues and was only stopped by the upper vertebrae. On one of Dr. Knabe's arms was a slight wound and blood was smeared on her left leg.

Haynes, the janitor, who had known Dr. Knabe for years, told the police that he went to bed in his room in the basement of the apartment house at 11 o'clock at night. Dr. Knabe's apartments were just above on the first floor of the building. He was awakened in the night, he said, by three screams apparently in Dr. Knabe's flat, but he slipped off to sleep again without investigating. At 5 o'clock this morning, he continued, he heard foot steps in the room above him.

The family living in the apartment above Dr. Knabe's, said they heard neither screams nor any other sound from Dr. Knabe's rooms. It was 8:15 o'clock this morning when Katherine McPherson, Dr. Knabe's assistant, entered the apartment and found her dead. The body lay prone on its back, the arms outstretched. The night dress was disarranged and across the breast was a pillow. There were only slight signs of a struggle. Miss McPherson called physicians who agreed Dr. Knabe had been dead about six hours. The coroner stated that he could find no evidence that she had been assaulted. The police were summoned and were unable to discover that there had been a violent struggle in any of the rooms or that they had been robbed.

Motive for the murder puzzled detectives tonight. Dr. Knabe spent much time in study. She had told Miss McPherson last evening she intended to read until late last night. She had a wide acquaintance but no one was found today that said she had an intimate man friend.

Dr. Knabe was 35 years old and of striking and attractive appearance. She had never been married. As bacteriologist and pathologist she was highly respected.

She was born in Germany, the daughter of a civil engineer in the German army. Coming to this country as a girl, by her own efforts she paid the expense of her education.

### TRYING TO SAVE H. C. BEATTIE

**Condemned Murderer's Father Visits Governor's Office Yesterday**

Richmond, Va., October 24.—Henry C. Beattie, Sr., father of the condemned wife murderer whose crime and trial attracted world-wide attention, was at the Governor's executive offices half an hour this afternoon in close private conference with his excellency's secretary, Ben P. Owen, uncle of Mrs. Louise Owen Beattie, the murdered woman.

His call was the first step of a personal appeal to Governor Mann in the interest of his son, the exact nature of which is not disclosed. Colonel Owen has engaged to ask for an appointment for Mr Beattie.

### MEMBER PARLIAMENT SUICIDE.

**Was in Jameson Raid on the Transvaal.**

London, Oct. 24.—Alfred Peter Hillier, Unionist member of Parliament for the north division of Hertfordshire, committed suicide today by cutting his throat. Mr. Hillier was associated with John Hays Hammond and Dr. Jameson in the organization of the raid on the Transvaal. He was president of the South African Medical Congress in 1893 and a member of the International Committee for the Prevention of Tuberculosis.

# ATHLETICS WIN FOURTH WITH TIMELY BATFEST

(Continued from Page One.)

cheers. This gave the Athletics their fourth and final run.

In the four games so far played neither Murray, of New York, nor Thomas, of Philadelphia, has made a hit.

Aside from the exceptional exhibition of hitting, the game was replete with brilliant fielding, both pitchers being backed up in fine style. Herzog and Fletcher, for the Giants, and Collins, Barry and Baker, for the Athletics, put up a dashing game. Baker had a throw that was a little wide charged against him and Fletcher fumbled a grounder in his hurry to scoop it up and shoot it to Merkle. Captain Davis and Merkle also fielded their positions brilliantly.

No attempt was made by either team to steal bases. Meyers tried to go from second to third on a short passed ball but was out on a good throw by Thomas. Once Murphy was on third with two out and in trying the hit and run game, Barry slipped a cog and Murphy was caught between third and home.

The crowd filled Shibe Park but it did not quite come up to the attendance of the first day. The figures given out by the National Commision showed a total of 24,355 paid admissions, or a total of 126,138 for the series.

The crowd was a most enthusiastic one. The home players having the advantage of two victories to one for New York had the greatest confidence that they would take the next game and the Athletics were heartily cheered when they made their appearance. Baker, of course, was the hero and he threw the crowd into a wild burst of enthusiasm when in practice he drove a ball out of the grounds.

The game was closely played. Snodgrass who had expected a demonstration against himself for the spiking of Baker in the game at New York on Tuesday last, went through the contest with only a few hoots and hisses aimed at him. This was in his second time at bat, and was not generally taken up by the crowd.

The stakes of the series are the richest ever played for by two baseball teams. They will split it, $127,910.61, of which 60 per cent., or $76,746.36 will go to the winners and 40 per cent., or, $51,164.24 to the losers. Twenty-one players on each team are eligible to participate in the money, so that the players on the winning team will each receive $3,654.68, and the members of the losing team $2,436.39 each. The Athletics in winning the world's championship last year received $2,064.74 each and Chicago, the losers, $1,375.16.

The game began on the minute of 2 o'clock. New York's hopes were raised right at the start. Devore singled and came home on Doyle's drive to right center for three bases. Snodgrass brought Doyle home with a long sacrifice fly to Lord and it looked bad for the Athletics. Murray was an easy out on a grounder to Davis and Merkle struck out.

The Athletics started off inauspiciously. Lord and Oldring struck out on seven pitched balls. Collins singled to center and Mathewson and Meyers held a conference to decide how to dispose of Baker. Whatever was decided upon worked true for Baker struck out to the intense delight of the New York rooters.

In New York's second inning, Herzog flied to Oldring and Fletcher made his first single of the series. He was forced at second by Meyers and the latter was left on the base paths when Mathewson went out on an easy grounder to Bender. For the Athletics Murphy smashed out his first hit of the series, getting to second on a drive to the right field wall. He went to third on Davis' out, Mathewson to Merkle. On an attempted hit and run play Murphy was run out and Thomas ended the inning with a foul fly to Meyers.

New York went out in order in the third, Devore flying to Lord, Doyle fouling to Baker and Snodgrass being thrown out by Barry. In Philadelphia's half Bender was an easy out at first on an assist by Fletcher. Lord singled to right and was forced at second by Oldring. Collins struck out.

It was one, two, three for the Giants in the fourth. Murray flying to Baker, Merkle taking three strikes and Herzog going out to Davis unassisted, but for the Athletics there was much doing. Baker doubled to center, Murphy to left and Davis to right, all corners of the field so to speak. On these hits Baker and Murphy scored. Davis moved up to third on Barry's out, Herzog to Merkle and came home with the third run on Thomas' sacrifice fly to Murray. Bender ended the inning by tapping one to Fletcher.

In the fifth inning Fletcher went out on a brilliant running pick-up and throw by Baker. Meyers hit to right field for two bases and a moment later was thrown out by Thomas on an attempt to make third on a short passed ball.

Mathewson received a base on balls, and was left on first when Devore flied to Lord. The Athletics added their fourth run to their total in the fifth inning. With Lord and Oldring disposed of on grounders, Collins slashed a single to right and came home on a great sprint when Baker drove his second double to center. Baker hit the first ball pitched. Murphy struck out.

Doyle received a pass in the sixth for New York and Snodgrass struck out. Murray sent a foul fly to Baker and Barry fooling Doyle by pretending to scoop a grounder, the latter stood on second long enough for Baker to get the ball to Davis for a double play.

In Philadelphia's sixth, after Davis grounded out on a fine play by Herzog, Barry hit for two bases to center which Snodgrass partly misjudged. He moved to third on Thomas' grounder, but was left there when Bender was thrown out by Herzog.

Merkle, the first man up in the seventh, struck out, Herzog flied to Oldring and Fletcher sent his second single to the outfield. Meyers was an easy out, Collins to Davis. This inning saw Mathewson in the box for the last time. Lord was safe on Fletcher's fumble. He was advanced to second on Oldring's sacrifice and to third on a similar play by Collins. Mathewson here pitched four bad balls to the dangerous Baker and the inning ended when Murphy grounded out easily to Merkle.

Becker batted for Mathewson in the eighth and went out, Collins to Davis. Devore singled to left field and was forced at second by Doyle. Snodgrass reached first on a wide throw by Baker and was left there as Murray fouled out to Thomas. Wiltse went in to pitch for New York and struck out Davis the first man up. Barry hit the left hander for two bases and took third when Murray made a bad throw to second. Thomas hit to Herzog who caught Barry between the bases and he was run out. Bender went out on a grounder to Merkle.

Merkle opened New York's last opportunity to score with a two-base drive to right. He went to third on Herzog's out, Baker to Davis, and was left there as Fletcher flied to Collins and Meyers was an easy out on a grounder from Collins to Davis.

Both teams left for New York tonight.

## WRIGHT'S WONDERFUL GLIDER

**Stayed Up Nearly Ten Minutes in 50-Mile Gale**

Kill Devil Hill, N. C., Oct. 24.—In a fifty-mile gale today Orville Wright went aloft and remained virtually stationary in his glider, with which he is conducting experiments in aerial stability. He was up nine minutes and forty-five seconds and maintained an altitude of approximately 150 feet.

The record breaking "night" was the 17th of a series that began today when the rain ceased. The first glide lasted only 54 seconds, each lengthening until the final one. The success of the experiment is understood here to mark a long step forward in the science of aviation and to point the way toward solving the problem of automatically preserving the equilibrium of heavier than air machines.

When Lorin Wright and Alexander O'Gilvie, the English aviator, brought out the machine for the initial flight, the wind gauge showed that the gale was 35 miles and freshening. Sand carried by the wind pelted the aviators, the tiny particles cutting like small shot. In the opinion of the experimenters no more trying weather conditions, under which to make the test of the machine could be found. The glider was equipped with rear rudder of 24 feet spread. In front, to preserve the balance, a 10-pound bag of sand was swung on the end of a rod extending eight feet in front of the aviator's seat. The ailerons, or balancing wings on the sides of the machines, were adjusted and Orville Wright lifted himself into the seat.

"Let it go," he shouted. Lorin Wright and O'Gilvie thrust the glider into the face of the rising gale and it shot up. Again and again this was repeated, each flight becoming lengthier, until for almost ten minutes Wright soared like a brooding buzzard on the rush of a 50-mile gale.

O'Gilvie made several brief flights at the close of the day, but none even approximated the success made by Wright. It was apparent that the maintenance of poise and balance rested as much on the ability and skill of the aviator as upon the mechanical contrivances by which the Wrights hope to minimize the perils of flying. Orville Wright admitted his satisfaction with the results and declared the conditions under which the flight was made were unusually severe.

"There were more different and different air currents up there," he said, "than I have ever experienced before. It was a novel and exciting experience."

Wright expects to continue the flights tomorrow.

## UNION MAN PARDONED.

**Death at Raleigh—New Administration Building—Other Notes.**

(Special Star Correspondence.)

Raleigh, N. C., Oct. 24.—Jack Coffee, Union county, serving 24 months for barn burning, received today a conditional pardon from Governor Kitchin after serving 18 months of the sentence. The prisoner has contracted chronic diarrhoea since he began his sentence and the physician says he is unable to cure him and urges the pardon as do the chairman of the road commissioners, the solicitor and others. Indeed, it is not believed that he can live many days after he gets the pardon.

The death of Mrs. J. S. Bryan occurred last evening at the home of her daughter, Mrs. T. A. Arnald, on West Peace street, and the funeral was held this afternoon from St. Savior's Chapel, conducted by Rev. M. A. Barber, rector of Christ Church. She leaves two sons, L. N. and E. H. Bryan, Raleigh, and three daughters, Mrs. Mary A. Crabtree, Mrs. T. A. Arnald, Raleigh, and Mrs. W. J. Bryan, Greensboro. She was 68 years old and was a most estimable woman.

The work of clearing away the old buildings on the site for North Carolina's first fire-proof State administration building, on Morgan street, between Fayetteville and Salisbury streets is well under way now and it is expected that the lot will be clear and ready for excavations to begin any time after November 1st. The State building commission, Hon. Ashley Horne, chairman, and W. E. Springer, Wilmington, secretary, is to open bids for the erection of the building November 1st. It is to cost a quarter of a million dollars.

The work of putting fire-proofed window shutters on all the windows on exposed sides of the agricultural and the Supreme Court buildings is being pushed right along now and will be completed before a great while. The shutters are to work automatically so that they will close of their own accord in the event of fire. They are to serve the double purpose to prevent the spread of fire either from or to the buildings, both of which are veritable fire traps in many respects.

F. M. Jordan, Asheville, has been added to the working force of the State department of insurance as a deputy commissioner of insurance to co-operate with Chief Deputy Scott in inspections and other work in all parts of the State.

## AFTER LUMBER TRUST

**Government's Fifth Suit Brought in St. Paul, Minn.**

St. Paul, Oct. 24.—The government's fifth suit in its fight to break up the so-called lumber trust was begun in the United States Court here today. It is directed against the following:

The Northwestern Lumbermen's Association.

The Lumber Secretaries Bureau of Information.

An Illinois corporation already under fire against the "trust," brought in Colorado.

Luke W. Boyce, owner of a private detective agency at Minneapolis, who is charged with spying upon independent lumber dealers who are said to have violated the trade "ethics" laid down by the alleged "trust."

The Lumberman Publishing Company, a Minnesota corporation which issues the Mississippi Valley Lumberman, a trade journal which the government charges has been the organ of the 'trust" in that section.

Platt B. Walker, of Minneapolis, editor of that paper, is made a defendant as are also the officers or directors in the Northwestern Lumbermen's Association.

As in similar suits now pending against the Eastern States Retail Lumber Association, the Michigan Retail Dealers' Association, the Colorado and Wyoming Lumber Dealers' Association and the Lumber Secretaries Bureau of Information, fourteen members of the latter organization being under criminal indictment charging violation of the Sherman anti-trust law, the government alleges that the lumber trade has been unreasonably restrained by illegal agreements and understandings which prevent the consumer from buying of whom and where he will; which absolutely forbid competition for trade and which have divided the country into non-competitive territories.

It is also alleged that the names of lumbermen who have violated the "ethics" have been published to the trade in the Mississippi Valley Lumberman.

The bill alleges many acts in pursuance of an alleged pact covering several years and that some of them were perpetrated and in form ceased several years ago, but each act alleged to have been part of a carefully devised plan by which first one restriction and then another was fastened upon the lumber trade and when once fixed was to all appearance abandoned and substituted with one less iniquitous.

The government asks injunctions restraining all these defendants from continuing the acts of which complaint is made. The suits is in direct charge of Clark McKercher, special assistant to Attorney General Wickersham.

Shanghai, October 24.—A Chinese dispatch from Yin-Tching, the war minister, reports imperialist successes over the rebels on October 20th and 21st, at Sin Yan Chow. The dispatch states that the rebels had more than 100 killed, while the losses of imperial troops amounted to a few score.

## THE HEATH FAILURE.

**Mr. Heath's Individual Indebtedness Not Large—His Endorsements.**

Charlotte, N. C., Oct. 24.—The petition in voluntary bankruptcy which was filed in the Federal court at Salisbury yesterday by O. P. Heath & Co., of Charlotte, was sent on here to Referee in Bankruptcy W. S. O'B. Robinson today. No reason was made public for the failure, but Col. W. C. Maxwell, of Maxwell & Keerans, counsel for Mr. Heath, made the following statement:

The statements contained in dispatches this morning are practically correct, but Mr. Heath's individual indebtedness is only about one-eighth the amount specified. Seven-eighths of his liabilities consists of notes of various corporations of which he was a director and these notes are fully secured by the endorsement of others. All notes for borrowed money are secured by collateral. Mr. Heath's individual liabilities amount to about $200,000.

Col. Maxwell explained that the note held by the banks specified in the lost of liabilities are good, whatever may be Mr. Heath's status. It does not mean that he owes the banks these amounts individually, but is an endorser along with others. Mr. Heath has not claimed any exemption to which he is entitled by law. Referee Robinson has not yet set a date for a hearing in the matter.

## WAS AN ABOMINABLE OUTRAGE.

**Governor Mann, of Virginia, Indignant About Race Gambling.**

Richmond, Va., Oct. 24.—Governor Mann today announced as an "abominable outrage" the State's non-interference with the betting at the Jamestown races at Norfolk and announced that he would exercise all the "authority in my power to prohibit gambling at this track."

The Fall race meeting will open November 2nd. Governor Mann was aroused by the non-appearance of counsel for the State when the case was brought by the attorney general of Virginia for revocation of the Jamestown Jockey Club's charter was reached in the Norfolk city Circuit Court yesterday. The governor immediately summoned the attorney general who, however, was away. "I will not submit to this indignity," declared Governor Mann.

## C. & O. DIRECTORS.

**Election at Richmond—Gen. Hubbard Fills Vacancy**

Richmond, Va., October 24.—General Thomas H. Hubbard, of New York, was this afternoon elected by the stockholders of the Chesapeake & Ohio railway to fill the vacancy on the board of directors caused by the resignation of Fred W. Scott, of this city. Major James H. Dooley, also of this city, who sent his resignation to the secretary of the board several days ago, withdrew it at the request of the other members of the board and was re-elected. The other directors were re-elected. They are as follows:

Decatur Axtell, Edwin Hawley, Henry E. Huntington, Theodore P. Shonts, George W. Stevens, Frank Trumbull and Frank A. Vanderlip. The board will meet and organize next month. General Hubbard, the new director, is a close friend of Edwin Hawley. He is widely known in railway and financial circles.

Republics aren't any more ungrateful than intimate friends.

# AFFAIRS AT STATE CAPITAL

**Death of Mr. Jones—Barbecue at the Country Club—Heating Plant Blown Up—Mail Lost in Transit—Other News**

(Special Star Correspondence.)

Raleigh, N. C., Oct. 24.—It had been understood for some time past that Jno. T. Jones, who died here last week leaving an estate of $30,000 or more, had disposed of his estate with a will but since his death it has not been possible to find any will at all. He leaves two children who have been in the care of relatives of Mrs. Jones in Buckingham, Va., since the death of Mrs. Jones a couple of years ago. It is feared also that it will be difficult on account of missing papers to locate some of the assets of the estate.

The members of the Raleigh bar who are members of the Country Club are arranging for a big barbecue to be given on the club grounds November 11th, at which the judges of the North Carolina Superior Court, sixteen in all, the members of the North Carolina Supreme Court, Governor Kitchin and Attorney General T. W. Bickett will be guests. Albert Cox, W. H. Pace and S. Brown Shepherd are a special committee on arrangements.

There is much interest in Raleigh in the fact that George F. Baker, prominent capitalist of New York, is having the famous geyser at Round Knob restored to be maintained at his expense under special endowment in honor of Col. A. B. Andrews, first vice president of the Southern Railway. The tribute is especially on account of the great part that Col Andrews has and is having in the development of western North Carolina, and the whole State, for that matter.

Raleigh is to vote October 31st on the question of whether the city shall erect a new market on another specified location just back of the present market, remodel the present building and re-equip it or do away with the market entirely. The first and the last propositions involve the sale of the present market and city hall property on Fayetteville street.

Governor Kitchin went to Oxford today on personal business and will take in the Granville county fair while there. He does not expect to make any speech while there but it is most probable that he will be called out when the crowd ascertains that he is on the grounds.

There have occurred recently a number of instances of lost letters in the railway mail from the western sections of the State to Raleigh and the postal authorities have been appealed to to put inspectors on the division to ferret out the trouble if possible. Letters containing money have dropped out completely a number of times.

William Jones, a former hack driver here who was given a two-year sentence on the roads in connection with a noted and most scandalous case, and who escaped from the convict camp a year ago, has been re-captured and recommitted to the chain gang. He was brought from Norfolk yesterday. He was a "trusty" when he got away.

When the steam-heating plant for the county Court House and the jail was started up on account of the "frosty" conditions that have developed here, the plant blew up making it necessary to order a new boiler that will cost $750. The plant has been in service only one season. Judge Peebles today ordered the sheriff to install stoves in the Court House as he would not continue court without fires.

The Corporation Commission sets November 15th for hearing the petition of citizens of Wilson for the Norfolk & Southern and Atlantic Coast Line to be required to provide a union passenger station. This is the case in which the Norfolk & Southern insists it has a station highly creditable to Wilson, and is providing passenger service for this section of road, far in advance of what the business of the road justifies. Therefore, the petition should be dismissed. If this is not done, they insist the union station should be at the junction of the two roads, a location objected to by the citizens.

A man giving his name as Charles Gilchrist, badly wanted by several Raleigh business men and police, for passing worthless checks. There were three checks, each for $11.65, and each signed by the Acme Wood Company, and payable to himself. They were drawn on the Wake Savings Bank, which reports no such account. The checks were made on Cross & Linehan Co., Peebles & Edwards Co. He offered a check to E. E. Broughton, furnisher, but he refused to receive it. Officers believe the man went from Raleigh to the Mecklenburg fair at Charlotte.

## DIES FROM EXPLOSION HURT.

**Fireman on Torpedo Boat Tingey Not Expected to Live.**

Charleston, S. C., Oct. 23.—One of the men hurt yesterday when boiler tubes on the torpedo boat Tingey burst, died this forenoon. He was J. H. Tibbs, the water carrier. J. S. Meyers, a fireman, is still alive, but it is not believed he can survive.

An official inquiry into the cause of the explosion will be instituted at the Charleston navy yard.

The Tingey is one of the few fighting ships of the navy that have been built in Baltimore. She has 165 tons displacement, being 15 tons heavier than the Somers, in use by the Maryland Naval Reserves. The vessel was built by the Columbian Iron Works, at Baltimore.

Tibbs was a native of this city, and Meyers is from Ashley, Mich.

## NOT LEAVING FIELD TO MADERO

**Reyes Denies Report That He Will Go to New York**

San Antonio, Texas, Oct. 23.—General Reyes, of Mexico, who has been accused of conspiring against the new government, today denied that he will move to New York. He said he has heard that Francisco I. Madero, president-elect, is coming to San Antonio to confer with him, but has heard nothing from Madero himself.

A statement was made here today by a friend of Madero that the latter has abandoned his trip to Piedras Negras because of reports from San Antonio that his assassination was planned.

## ROSE HILL IMPROVEMENTS

**Waterworks and Electric Lights—Another Good Road—Notes**

(Special Star Correspondence.)

Rose Hill, N. C., Oct. 24.—Among the new enterprises that will soon claim the attention of our people will be waterworks and electric lights for Rose Hill. A town that is continuously growing must offer every advantage and must keep pace with other wide-awake towns.

The people living in the terrritory between here and Delway, in Sampson county, are going to build a good road to that point in the near futuro. This will be a great advantage to Dell School and the farmers in that thrifty community know the value of good roads and are willing to build this sand-clay road.

This is a thrifty farming section and the farmers are compelled to haul their products over miles of bad roads. They have grown sick and tired of that and now the time is ripe for a change and before another year they will all live along a splendid public road, leading to one of the best markets on the W. & W. Railroad——Cotton is coming in rapidly while a large number of farmers are going to hold for better prices——The average farmer has made fully one bale per acre in this county while in a great many instances the crop will reach from one and a half to two bales per acre.

Dr. L. L. Nash is conducting a revival at the Methodist church here for several days——The Atlantic Coast Line might give this town a larger and better depot. With the great amount of freight hauled here, the present one is inadequate——The negro Roy Williams, who last week shot at an engineer on a logging train, has made good his escape. He is said to be well armed. One report has it that Williams has been shot and killed near Harrell's store, in Sampson county. but this report is not believed. He is a bad negro and will give somebody trouble if ever taken.

The farm life school election on November 7th for this county now claims the attention of the people. At this time it is impossible to forecast the results——This town was well represented at the State Fair. About 50 went up and report the fair all right——Mr. Burnett Mallard and Mr. Z. Ezzell, two of our oldest citizens, have passed away. They were brave Confederate soldiers——The schools in Duplin are improving fast. There is no reason why every white child can't learn to read and write.

## WHITEVILLE AFFAIRS.

**Killing Frost Prevented—Chadbourn's Rally—Other News Notes.**

(Special Star Correspondence.)

Whiteville, N. C., Oct. 24.—It is real cold here this morning, and the cloudy weather is all that prevented a heavy and killing frost. The rain Sunday night put a stop to cotton picking Monday, and it looks now like more falling weather.

Miss Annie May Smith, of Fairmont, is the guest of Mrs. J. F. Barkley.——Mr. James Baldwin and family have moved to Whiteville from Chadbourn and are occupying the Walter Gore cottage in Vineland.

It is hoped by Superintendent Wooten that there will be a line of school children at Chadbourn November 8th, at the Farmers' Union Rally to make a mile long. The schools will have the afternoon programme in hand and there will be a band at the head of the procession.

Mr. G. Herbert Smith, of Acme, one of our most enterprising and popular citizens, has been a great sufferer from a face trouble, and will go soon to a hospital in Baltimore for further treatment. Mr. Smith has been a loyal friend to our farmers and they wish him a speedy recovery of his health.

## NAVAL CRAFT MISSING

**Torpedo Boat Destroyer Being Hunted Along Coast**

Norfolk, Va., Oct. 24.—Because nothing has been heard from the torpedo boat destroyers Barney, Craven, McDonough and Wilkes which left Charleston, S. C., several days ago bound to Norfolk, naval authorities today dispatched the destroyer Reed and the tug Potomac to sea to search for the missing craft. A meagre report telling of the bursting of a steam pipe on the Wilkes is all the news naval officials have received from the boats since they left Charleston.

They were due to arrive here yesterday. Efforts to locate the tiny fighters by wireless proved fruitless today and as a last resort, the Reed and the Potomac were ordered to sea to search for them. An unidentified torpedo boat destroyer passed out to sea tonight. She too has gone to join in the search but her name could not be learned.

## FLEECED BY CIRCUS MEN

**Tickets Sold at Outrageous Prices—Big Crowd at Goldsboro**

(Special Star Telegram.)

Goldsboro, N. C., Oct. 24.—Hundreds of people were refused admittance to the John Robinson circus this afternoon after they had purchased tickets, the main entrance ticket collectors claiming that the big show would not accommodate any further admittance, but after holding the anxious crowds back until the performance had been started several showmen then made their appearance upon the scene and proceeded to sell admission tickets at the outrageous price of $1.00, not allowing anyone to pass them, who did not purchase one of these tickets.

A few people were able to collect their money back for tickets purchased prior to the opening of the main entrance, but not until they had threatened to have either their money refunded or call officers of the law to their rescue.

While the show is rid of the usual class of "skin-game" attractions which generally follow a circus around the way the people were fleeced out of their money this afternoon is an outrage and should not be tolerated by the head officials of any city. The above affair has been reported to the local authorities and if the fleece game is attempted at the night performance, the promoters will promptly be arrested charged with getting money under false pretenses.

## MR. SAMUEL T. JENRETTE.

**Aged Resident of South Carolina Passes—Relative of Mr. Cooper.**

Mr. W. B. Cooper, president of the American National Bank, returned on the late train from the South this morning from Mullins, S. C., where he attended the funeral of his grandfather, Mr. Samuel T. Jenrette, one of the oldest and most highly esteemed residents of that section of the State. Mr. Jenrette passed away Monday night, aged 88 years, the infirmities of one of his years being the cause of his passing. Mr. Cooper, of this city, had the distinction of being the oldest of a family of nearly 200 grand and great grandchildren of the venerable man. He is survived by the immediate family by one son, Mr. Isaac Jenrette, of Conway, S. C., and six daughters, while there are a large number of more distant relatives residing in South Carolina, and in Brunswick and Robeson counties, this State. The news of the passing of Mr. Jenrette will be learned of with sorrow by a host of friends throughout this section. He had been a member of the Methodist church for 50 years or more and was the oldest Confederate soldier in the section of the State in which he lived. His passing is a loss to his church, the community, and the large and influential family which he had reared.

Young Mothers

No young woman, in the joy of coming motherhood, should neglect to prepare her system for the physical ordeal she is to undergo. The health of both she and her coming child depends largely upon the care she bestows upon herself during the waiting months. Mother's Friend prepares the expectant mother's system for the coming event, and its use makes her comfortable during all the term. It works with and for nature, and by gradually expanding all tissues, muscles and tendons, involved, and keeping the breasts in good condition, brings the woman to the crisis in splendid physical condition. The baby too is more apt to be perfect and strong where the mother has thus prepared herself for nature's supreme function. No better advice could be given a young expectant mother than that she use Mother's Friend; it is a medicine that has proven its value in thousands of cases. Mother's Friend is sold at drug stores. Write for free book for expectant mothers which contains much valuable information, and many suggestions of a helpful nature.

## ATLANTIC COAST LINE RAILROAD COMPANY

Office of the Treasurer
Wilmington, N. C., Dct. 23, 1911.

The Board of Directors of the Atlantic Coast Line Railroad Company has declared two per cent. interest on the Certificates of Indebtedness of that Company, payable at the office of the Treasurer, at Wilmington, N. C., on and after November 1st, 1911. The transfer books are closed from the 20th day of October, 1911, to the 1st day of November, 1911, both inclusive.

JAMES F. POST,
oct. 24 to Nov. 1. Treasurer.

**NOTICE.**

The undersigned will, on the 23rd of November, 1911, apply to the governor for a pardon for James E. Tisdale, convicted of murder in the second degree, at Burgaw, July, 1911, and sentenced to the penitentiary for 15 years. All persons opposing the granting of same will forward their objections to the governor.

What's The Matter With Your Baby?

The young mother—and many an old one, too—is often puzzled to know the cause of her child's ill nature. The loudness of its crying does not necessarily indicate the seriousness of its trouble. It may have nothing more the matter with it than a headache or a feeling of general dullness. It cannot, of course, describe its feelings, but as a preliminary measure you are safe in trying a mild laxative.

Nine times out of ten, you will find it is all the child needs, for its restlessness and peevishness are perhaps due to obstruction of the bowels, and once that has been remedied the headache, the sluggishness and the many other evidences of constipation and indigestion will quickly disappear.

Don't give the little one salts, cathartic pills or nasty waters, for these will act as purgatives, and they are too strong for a child. In the families of Mrs. O. R. Crae, Wellford, S. C., and Mrs. Helen Sheetz, La Grange, N. C., the only laxative given is Dr. Caldwell's Syrup Pepsin. It has been found to answer most perfectly all the purposes of a laxative, and its very mildness and freedom from griping recommend it especially for the use of children, women, and old folks generally—people who need a gentle bowel stimulant. Thousands of American families have been enthusiastic about it for more than a quarter of a century.

Anyone wishing to make a trial of this remedy before buying it in the regular way of a druggist at fifty cents or one dollar a large bottle (family size) can have a sample bottle sent to the home free of charge by simply addressing Dr. W. B. Caldwell, 405 Washington St., Monticello, Ill. Your name and address on a postal card will do.

Entered as second-class matter at the postoffice at Wilmington, N. C., under Act of Congress, March 2nd, 1874.

FULL ASSOCIATED PRESS REPORT.

PUBLISHERS' ANNOUNCEMENT.

**THE MORNING STAR**, the oldest daily newspaper in North Carolina, is published daily except Monday, at $6 per year, $3 for six months, $1.50 for three months, 50 cents for one month, served by carriers in the city, or by mail.

**THE SUNDAY STAR**, by mail, one year, $1; six months, 50 cents; three months, 25 cents.

**ADVERTISING RATES** may be had on application, and advertisers may feel assured that through the columns of this paper they may reach all Wilmington, Eastern Carolina and contiguous territory in South Carolina.

Obituary sketches, cards of thanks, communications espousing the cause of a private enterprise or a political candidate, and like matter, will be charged at the rate of 10 cents per line, or if paid cash in advance a half rate will be allowed. Announcements of fairs, festivals, balls, hops, picnics, society meetings, political meetings, etc., will be charged under same conditions, except so much thereof as may be of news value to readers of the paper.

Advertisements discontinued before expiration of contracts are charged transient rates for time actually published. Payment for transient advertisements must be cash in advance. Contract advertisers will not be allowed to exceed their space at same rates, or advertise anything foreign to their regular business without extra charge. Advertisements to occupy special place will be charged for according to position desired.

**TELEPHONES:** Business Office, No. 51; Editorial and Local rooms, No. 61. Call either, if the other doesn't answer.

**COMMUNICATIONS**, unless they contain important news, or discuss briefly and properly subjects of real interest, are not wanted; and if acceptable in every other way, they will invariably be rejected unless the real name of the author accompanies the same, not necessarily for publication, but as a guarantee of good faith.

Preserving the sweetness of proportion and expressing itself beyond expression.—Johnson.

President Taft must have whipped back into the insurgent's country with the expectation of stealing a base.

If Wilmington bets the way it yelled around the Star's baseball bulletins yesterday, it will be on the Giants by a large majority.

Says Robert Beverly Hale: "Some friends shine out like stars in Winter nights." Some, however, refuse to shell out when it would be a good time for them to do so.

Judge Peter S. Grosscup, of Chicago, has resigned from the Federal bench. Did he have anything handed to him, or did he see it coming? Who said some judges were above the recall?

Miss Sophronisba Breckenridge sounds suffragettical. In fact, Miss Sophronisba was elected second vice president of the American National Suffragette Association in Louisville on Monday.

We didn't anticipate anything better than that the Presidents would use their expense money to swing around the circle and mend their political fences. We do not like the idea of seeing a President doing his own campaigning.

The new Recess Club organized in New York has 250 members and the least any of them is worth is $10,000,000. One of the rules is that they shall not talk money, but it is quite easy to imagine that in the Recess Club money will talk.

North Carolina papers which are calling "corn shuckings" corn huskings are in contempt of court. Any further offences will merit a heavy fine, for there is no use to try to use words borrowed from people who come from a country where they hunker down over a few nubbins and call it a husking.

Col. Roosevelt proposes to maintain an attitude of silence during the campaign for the Republican Presidential nomination. That's a nice way to treat President Taft when he is badly in need of a few loud and lusty endorsements. The very idea that an old friend should be silent while the bandwagon is on the go!

Why should it be mentioned now whether a man voted for Palmer and Buckner, or Bryan and Davis, or McKinley and Roosevelt, or Roosevelt and Sherman, just so he wants to be a Democrat in 1912? What the Democratic party wants now is recruits, it matters not what camp they come from so they are willing to take the countersign.

The Durham Herald remarks: "Mr. Aycock would stand a much better chance at it if some people did not have an idea that his candidacy is intended in some way to help Mr. Simmons." Concerning this reference of the Herald to the ex-Governor the Charlotte Chronicle says: "But how? We have heard intimations of the same kind ever since Aycock's candidacy was announced, but we confess we are not politician enough to figure it out." Is it fair to ex-Governor Aycock to place him in any such unenviable attitude? Those who know him wouldn't even suspect such a thing, much less hint it. Our respect for and confidence in Simmons, Aycock, Kitchin and Clark is such that we would not believe a one of those distinguished North Carolina statesmen are of the calibre that they would go in a campaign as a pacemaker.

## AUSTRIAN TARIFF BLAMED

The effect of a protective tariff is the same everywhere. It enables manufacturers to monopolize business, put up prices, control the market, and exploit consumers for their own benefit. That is not all. A protective tariff enables employing manufacturers to gobble up the benefits and pay their labor little or none of it, just as they see fit.

One of the strong pleas of all protective tariff advocates is that it protects the labor of our country against the cheap labor of others, but wherever the protective tariff prevails, labor has to get its share by expensive strikes and then sometimes it does not get its proper increase after tariff benefits fall into the coffers of the parties of the first part—the trusts and monopolies. After the passage of every tariff bill in this country, strikes begin and the fight is kept up till some sort of equlibrium is reached and business can proceed. The trouble about it is that tariff laws, instead of requiring that the benefits shall be paid direct to labor, so shape it that they go into the hands of employes to be doled out as they please. In realty, the stiffed prophets of protection dump it into their coffers and use it to strengthen their monopoly, corrupt lawyers, legislators, legislatures, and officials, pay enormous salaries and pile up millions. With the steady absorption of the wealth of a country, there is no wonder that the assisted rich grow richer and the unassisted poor get poorer because of increased expenses out of all proportion to their earnings.

Austria and Germany are having the same experience with their protective tariffs as we are having in the United States. Austria passed a protective tariff to shut out foreign competition and her manufacturers combined to do the rest—shut out home competition. In the United States the monopolists were not satisfied with the Republican plan of fencing in the American people to be exploited by them, but the organized trusts to crush out home competition and fix prices at figures even greater than the tariff itself would justify. In fact, a trust can fix prices and do as it pleases without regard to what the tariff allows them to do, in its purpose to compel the masses to be mulcted for the enrichment of tariff beneficiaries.

Austria, in common with the rest of the world, has been seriously affected by the increased cost of living and complaints are heard on every side from the masses who are being held up by Austria's tariff beneficiaries. There, as well as here, the tariff is largely held to be responsible, and there, just like it is in the United States, it is charged that the Austrian producers take the entire benefits of the tariff, ignoring the share of labor and keeping their prices as high as possible without encouraging importations or inviting competition. Hence it appears that Austria and the United States suffer from the same cause—the elimination of competition and imposition on consumers.

Consul General Denby reports from Austria to the State Department at Washington that the increased cost of living in Austria is severely felt, not only by the poorer classes and wage earners but by those of moderate means dependent on fixed revenues from investments. In Austria, as elsewhere, the advance in the cost of living has not been accompanied by an increased return from securities. Rents have increased to tenants, just like they have here, provisions are dearer to consumers, clothing costs more, and all commodities are higher, but the earnings from wages have not increased accordingly and the revenue from bonds, shares of stock, and real estate has remained on the lower level. From all accounts, it is said, the result is that the deficiency of wages has pinched working people and the unprofitableness of investments has led investors to look for remunerative investments elsewhere, and that has caused a tendency to speculate. Speculation is said to have become a new habit of the Austrian people and it has already assumed such proportions as to be a menace to the investing classes.

The increased expenses in countries in which such conditions prevail, have its effect on even free trade countries and the general result is that the whole world is feeling the pinch, is economizing and thus curtailing business. The signs of the times are that the people of the United States have gotten all they want of a political system which enables the tariff beneficiaries to fatten, sweep the stakes and gloat, while the average man, on account of his numerous contributions to the stakes, is hardly able to keep a roof over his head and pay expenses. It is a game in which the cards are stacked against the people and they are catching on to the infamous deal in which they always catch the deuce.

## ALONG THE COAST TOUR.

The automobiles which have taken part in the Glidden Tour and which are to arrive in Jacksonville in a few days, left New York and came down through central Virginia, and the middle portion of North Carolina. That route was taken because there are more good roads than elsewhere on the over-country route between New York and Jacksonville. The Glidden Tour passed by way of Greensboro, Winston-Salem and Charlotte, and it is exceedingly gratifying to learn that the tourists had compliments for North Carolina's highways. No greater compliment could be paid to the progressive people of North Carolina and no better publicity could be given the State than the announcement to the world that North Carolina is a good roads country.

Mr. James A. Gray, editor and president of the Atlanta Journal, was with the Gliddenites, and, according to the Charlotte Observer, he paid a very fine compliment to the North Carolina roads while he was a visitor in Charlotte on Thursday with the Glidden motorists. The Observer states that Editor Gray declared to several Charlotte friends that he "was able to recognize the North Carolina roads shortly after he entered the State, by reason of the smoother running of the car and the better turns and grades."

Said Mr. Gray: "Within a short time after we crossed the line from Virginia, I announced to the others in the car that we were in North Carolina because I could 'feel' it from the roads. It was about 11 o'clock at night and on inquiry I found that I was correct." The distinguished Atlanta editor added that North Carolina has made more improvements along the route of the National highway in her roads than any other State through which the great thoroughfare passes.

Such automobile excursions as the Glidden Tour are mere beginners to the automobile processions which will pass through various portions of the South when our highways become inviting to those who love to take such trips from the North to the South. With good roads and increased travel, there will grow up highway hotels and "check in" points, and as encouragement to that class of tourists, eastern North Carolina could not do better than to hurry up with her good roads so we can have along-the-coast tours from New York to Jacksonville, Palm Beach and St. Augustine. It would be a good idea to get all the counties in tidal Virginia, coastal North Carolina and eastern South Carolina interested in a great scheme for an Atlantic Coast Highway. We have got to have good highways for the betterment of our agricultural interests and there would be nothing more inspiring in the movement than to link up our roads and invite automobile travelers and tourist parties to sweep down through the Nation's Garden Spot.

## CHARLESTON IS INTERESTED.

Charleston is very much concerned in the proposed Atlantic and Pacific Steamship Company, which is being promoted by Mr. B. N. Baker, of Baltimore, with a view to establishing a steamship line between New York and Colon. For that purpose it is proposed to organize a $50,000,000 corporation, and certain ports on the Atlantic are being asked to take stock and become ports of call for the inter-oceanic steamers. Monday night a meeting of the Charleston Chamber of Commerce was held to talk over the proposition, and in earnestly calling upon Charleston's business men to attend the meeting the Charleston Post says in an editorial:

"The gathering of business men invited for this evening at the Commercial Club at 8:30 o'clock should be one of the most earnest, as it will certainly be one of the most important commercial conferences held in this city in many years. The purpose of the gathering is to consider the present state of Charleston's interest in the proposed establishment of a line of steamships to operate through the Panama Canal, when that great waterway is completed, as it will be, two years hence. The greatest commercial opportunity that has been presented to this community since its settlement will be offered by the opening of the Panama Canal, and it is time that Charleston were preparing actively to embrace it. The first concrete plan for making effective commercial use of the canal has been presented by the Baker project of a great steamship line to ply between ports of the Atlantic and Pacific coast and connect with other lines operating to the ports of South America. Charleston is to be one of the ports of call for the line, and a foreign trade should be developer through this port of very great proportions. It is of immediate and overwhelming importance to Charleston that an enterprise of this character should be undertaken, and this one seems to have the elements of success calling for the fullest support and the most enthusiastic co-operation on the part of this community."

Charleston has been canvassed by committees oppointed to enlist interest in this proposition and the meeting Monday night was to discuss and further the plans. Savannah has taken similar action and there is a proposition there to subscribe $100,000 to the capital stock. Cannot Wilmington, by some hook or crook, get in the Baker deal? We ought to try if we do nothing else.

## CURRENT COMMENT.

It is said that out of about 1,600 colored voters in this city, probably 1,300 are purchasable. If this be true, something should be done to detect and punish the men who buy them.—Chester (Pa.) Republican.

The Marquis of Queensbury said in New York the other day that the position of a man in England who has a title and no money "isn't worth a damn." As the Marquis was on the eve of returning to England it is presumed he found that his position in this country is not materially different.—Columbia State.

The National Congress has in part provided for the development of the Nation's inner navigation system, but no provision has yet been made for the protection of the Atlantic coasting trade. Fully one-half the entire water-borne commerce of the country swings up and down the Atlantic coast. The present Congress should make way for the scheme that means the elimination of the Atlantic graveyards.—Baltimore Sun.

If the Chinese revolution is successful Chinese women are to have suffrage, according to statements of Celestial travelers in the United States. Getting rid of pigtails and the "lilies" or bound feet of Chinese women, evidently were the indications of real enlightenment in China. It seems the great country at last is shaking off its lethargy and will have to be reckoned with by world powers in future.—Savannah News.

The chief quartermaster U. S. A. at Manila, Philippine Islands, writes the Chamber of Commerce in regard to the valuable prizes it offered year before last for the greatest yield of corn on an acre, the winner being Mr. James F. The official said he had read recently in the New York Sun the story of Mr. Batts and the wonderful results he got on one acre of land.—Raleigh Times.

That quarreling, rowing board of directors of the Seaboard Air Line railway who have made that system famous in a way, are said to have made the lease of the Clinchfield by the C. & O., and the Seaboard jointly a thing of the past. They are said to have been opposed to the terms of the lease and as a result of their opposition the whole transaction has been abandoned. This is the word passed around down here, and is seemingly correct. The abandonment of this project does not, however, mean the abandonment of the idea that the Elkhorn extension of the C. C. C. & O. road is not still the thing of supreme importance with the owners of the property, according to a news story in the Herald today, but it is intimated that something interesting and definite in this connection may be announced soon.—Spartanburg Herald.

No doubt the big export movement has something to do with the low price of cotton, for, if the farmers had not sold there would have been no cotton to export. This season, so far, 86 vessels have been chartered to carry cotton from Southern ports to the United Kingdom and the continent—cotton had ought to be worked up in Southern mills and exported in the manufactured form. As showing where the cotton has gone, one has only to look at the statement of port receipts. There are 29,250 bales at Wilmington against 26,007 bales last year. At all the Southern ports there are 471,124 bales, against 449,223 bales last year. This would seem to indicate that with this increased stock available for export, furnishing a supply so far in excess of last year, there could be nothing else than a cheap market. Cotton in the warehouse means higher prices than cotton on the export dock.

## NO PATENTS FOR HEANY.

**Applications on Tungsten Light Rejected on Account of Fraud.**

Washington, Oct. 23.—The John Allen Heany application for patent on the Tungsten light, involving $5,000,000 and the basis of past criminal and civil proceedings, have been rejected by the Patent Office on the ground of fraud. Assistant Patent Commissioner Billings will officially announce the adverse action on the Heany claims tomorrow.

Heany's home is in York, Pa. His application affected five cases, the decision in all being adverse to him. Of these cases three were applications for amendment of application and all were thrown out on the specific declaration of fraud.

His original application now dissolved, interfered with the consideration of half a dozen other Tungsten light patent applications, and these will now receive official attention.

As a result of charges of fraudulent practices in connection with the work on the claims in the Patent Office Ned W. Barton, an examiner, and H. E. Everding, of Philadelphia, Heany's attorney, were sentenced to terms in the penitentiary and Heany sought ineffectually to have the courts enjoin the proceeding by which the commissioner of patents has refused his application.

# TAKEN TO THE HOSPITAL

**After Operation Failed to Help, Mrs. Kendrick Found That Cardui Made Her Well**

Jonesville, S. C.—"I suffered with womanly trouble," writes Mrs. J. S. Kendrick, in a letter from Jonesville, "and at times, I could not bear to stand on my feet.

The doctor said I never would be any better, and that I would have to have an operation, or I would have a cancer.

I went to the hospital, and they operated on me, but I got no better.

They said medicines would do me no good, and I thought I would have to die.

At last I tried Cardui, and I began to improve so I continued using it. Now, I am well, and can do my own work. I don't feel any pains. Cardui worked like a charm."

There must be merit in this purely vegetable tonic remedy for women—Cardui—when it will help such an apparently hopeless case as this. Its ingredients are mild herbs, with a gentle tonic effect, on the womanly constitution.

If you suffer from any symptoms of womanly trouble, take Cardui. It will help you to get well.

Cardui goes to the spot—reaches the trouble—relieves the symptoms, and drives away the cause.

Have you tried it? If not, do so. It may be just what you need.

**Deaf Mute Pleads Guilty in Writing to Abusing His Wife.**

St. Joseph, Mo., Oct. 24.—Pleading guilty to swearing at his wife in the sign language, August Carrado, a deaf mute, was fined $10 yesterday in the Police Court. He was charged with using "loud and profane language", but when haled to court it was learned he could not hear or speak.

The word "loud" was stricken from the information and he pleaded guilty in writing to the charge of using "profane language towards his wife," who also is a mute. When he wrote the word "guilty" he wept.

# SHE SUFFERED FIVE YEARS

**Finally Cured by Lydia E. Pinkham's Vegetable Compound.**

Erie, Pa. — "I suffered for five years from female troubles and at last was

almost helpless. I went to three doctors and they did me no good, so my sister advised me to try Lydia E. Pinkham's Vegetable Compound, and when I had taken only two bottles I could see a big change, so I took six bottles and I am now strong and well again. I don't know how to express my thanks for the good it has done me and I hope all suffering women will give Lydia E. Pinkham's Vegetable Compound a trial. It was worth its weight in gold."—Mrs. J. P. ENDLICH, R. F. D. No. 7, Erie, Pa.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases we know of, and thousands of voluntary testimonials are on file in the Pinkham laboratory at Lynn, Mass., from women who have been cured from almost every form of female complaints, such as inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

**City Council Decides to Sell $400,000 Worth of Improvements Bonds Other Matters Before the Body Yesterday**

The City Council was in session for nearly three hours yesterday afternoon and during this time a variety of matters were considered and acted upon, the most important of which perhaps was the adoption of a resolution providing for the sale of the remaining $400,000 worth of water and sewerage and street improvement bonds in blocks of not less than $100,000 and authorizing an advertisement calling for bids for the same to be opened at noon on November 15th. This action was taken at the request of Councilman M. G. Tiencken, in charge of the department of Accounts and Finances, who offered the following resolution:

"Resolved by the City Council, That the Councilman of Accounts and Finance be requested to have advertised the remaining bonds authorized to be sold for account of the water and sewerage department and for street improvements, amounting to $400,000, in blocks of not less than $100,000, under the following condition, towit: That the purchaser of said bonds may designate the depository in which funds derived from the sale thereof shall be kept, pending expenditure, subject to payment of interest on such deposits at the rate of 4 per cent. per annum, and the furnishing of a bond satisfactory to the Council for the safety of such deposits."

The Council also discussed, at the request of a delegation of citizens, the proposition to improve Macomber's ditch and provide a boulevard to run through the property; considered proposed reforms in regard to plumbing work in the city, finally deferring action until a special meeting to be held Friday morning; discussed the matter of disposing of trash, receiving a proposition from Mr. Jesse Wilder to take the trash and use it on his property across the river without cost to the city; elected two new members of the police force; decided to send the city attorney to Philadelphia tonight to confer with attorneys of the bondholders of the Wilmington Sewerage Company with regard to the papers of transfer of the property of the company to the city of Wilmington, and considered a number of other matters of more or less interest and importance.

Mayor Joseph D. Smith presided with all the members in attendance, Councilman P. Q. Moore having returned since the last meeting from a trip North. There were in attendance also Capt. Thos D. Meares, the clerk; City Attorneys Herbert Mc Clammy and Geo. L. Peschau; Dr. Chas. T. Nesbitt, city superintendent of health; Rev. Dr. A. D. McClure, Messrs. Thos. H. Wright, R. H. Northrop, Adam Empie, Jesse Wilder, R. H. Grant, Wilbur Dosher, J. D. Lowry and others.

Report was received from the city civil service commission that Messrs. T. J. Overby and Reilly D. Smith had passed the firemen's examination, and Messrs. S. H. Fulford, W. H. Rivenbark, Jas. O. Bullard, J. P. Brinson, A. D. Newton, G. W. Bullard, E. N. Sessoms and R. McD. Johnson, the examination for the police department.

Councilman B. C. Moore, in charge of the Department of Public Safety, recommended the election of Messrs. G. W. Bullard and A. D. Newton as members of the police force. They were duly elected, after it had been ascertained that the Council had a right to elect any of those whose names were certified from the civil service commission whether they made the highest average on the examination or not.

Mr. Adam Empie, the hustling president of the Wilmington Civic League, was the first to be heard with reference to the proposition to improve Macomber's ditch, and establish a boulevard which would also be used as a playgrounds for children. He was followed by Mr. Thos. H. Wright, who suggested that it would be a good idea for the Council to authorize the city engineer to prepare plans and specifications, so that the probable cost of the work could be more definitely determined and mentioned the fact that Col. Wm. F. Robertson, of Charlotte, who was here to look over the ground, had stated that the work would cost under $40,000. Councilman P. Q. Moore thought that the improvement should be made now if at all, provided the city has the money to do it. The suggestion was made by one of the citizens that it would probably be a good idea to make the improvement and leave the ditch open as it would probably cost less money and the ditch uncovered might be advantageous to the scheme for a boulevard. However, this suggestion did not appear to meet with the approval of the Council, members of which seemed to be of the opinion that the ditch should not remain open even if it should cost a little more money to cover it.

Councilman M. G. Tiencken, in charge of the Department of Accounts and Finance, said that he was in favor of the improvement, but that his department was "dead broke" and that he was opposed to borrowing money at 6 per cent. for the improvement, but would be willing to borrow the amount from the street improvement fund to be paid back in one or two years, the amount being raised during that time by taxation.

Rev. Dr. A. D. McClure, pastor of St. Andrew's Presbyterian Church, and president of the Wilmington Playgrounds Association, was next heard on the proposition. He said that he knew men of means in Wilmington who would be willing to provide playgrounds for children if the boulevard scheme goes through, and he also mentioned the fact that a Wilmingtonian has promised to give a school in that section of the city provided the improvement is made as planned.

Councilman P. Q. Moore, in charge of the Department of Streets and Wharves, said that he would not agree to lend any of his money for the improvement and that Councilman Tiencken would have to borrow from the bank.

On motion of Councilman Perdew Councilman P. Q. Moore was instructed to have the city engineer prepare plans and specifications for the improvement and make report in two weeks.

Next was taken up the question of some proposed reforms in plumbing and Dr. Chas. T. Nesbitt, city superintendent of health, said that the matter by rights should have been considered six weeks ago. Recently he has held meetings with the master and journeymen plumbers at which the city ordinance relating to plumbing was read and re-read and some important changes had been suggested, but these had not been put in proper form. Dr. Nesbitt said that there are two factors entering into the plumbing work here which, he said, is the reason the town is filled with the rottenest plumbing of any town of the size in the country, viz: first incapable plumbers, and second, installation of plumbing without regard to the law. He said that the plan used and the method employed under the previous city government is responsible for the conditions. Dr. Nesbitt made several recommendations. First, that the license of plumbers be doubled, being increased to $100 a year, whether he employ one person or a dozen to assist him; second, that all journeymen plumbers be required to pass an examination before they are issued a license and that no work be put in the hands of any plumber who has not secured the license; third, that the fee system of the office of inspector be abolished and that an inspector be employed who can give all or most of his time to the work. Mr. R. H. Grant, the plumbing inspector, and Mr. Wilbur Dosher, a well known young plumber, were present and took part in the discussion, both agreeing that some improvement should be made. It was decided to hold a special meeting Friday morning at which the matter will be given further consideration.

Mr. Jesse Wilder, a member of the former Board of Audit and Finance, was at the meeting for the first time since the new administration took charge and was cordially welcomed. Mr. Wilder was present to say to the Council that the question of disposing of the trash was no longer a problem as he would be glad to have all the trash to place on his five-acre tract of land just across the river. He said that it would not cost the city any ferriage to dump the trash on his property. The matter was taken under consideration. Later in the meeting Mayor Smith stated that Hon. John D. Bellamy had stated that the city might dump the trash on his property near Smith's Creek, in the northern section of the city. Councilman B. C. Moore moved that the Mayor secure the plan and estimate of the cost of construction of a home-made incinerator for the disposal of the trash and report at a later meeting.

Mayor Smith reported to Councilman B. C. Moore that some one had complained to him that the disorder on Chesnut street at night continues very noticeably. Councilman Moore said that his department was doing its best to remove all cause for complaint on this score and that he had a number of compliments during the past few days as to the improvement in conditions in the section of city complained of. He remarked that unless the automobiles visiting that section make less noise that he will ask Council to adopt an ordinance prohibiting the machines from running at night after a certain hour. Mayor Smith remarked that it is unlawful for women of questionable character to go riding with men in automobiles and that if the practice could not be broken up in any other way that officers could be stationed in the district and arrest the parties as they start to get in the cars.

Councilman Tiencken said that his department had been unable to collect the special license or privilege tax from fertilizer companies and other corporations. Some one remarked that the matter had been referred to City Attorney McClammy with instructions to bring suits. Mr. McClammy said that suits would be instituted during the next few weeks. It was said that the Supreme Court has held in a case which went up from Newbern that corporations are liable for the tax the same as other concerns.

Dr. Nesbitt said that there has been no smallpox in Wilmington since July, but that there are 15 cases at Navassa and there is danger of there being some cases here during the Winter, therefore he recommended the adoption of a quarantine law and suggested that some needed improvements be made at the pest house. Dr. Nesbitt was authorized to secure estimate of cost of the improvements at the pest house and report at the meeting Friday, at which time the quarantine ordinance will likely be adopted.

A request of the Seaboard Air Line made by Hon. John D. Bellamy, local attorney, through Mayor Smith, that the city lower its 24-inch water main at Hilton, where it goes under the railroad tracks near Fifth street, as the excavation being made for the new tracks to be put down will leave the water pipe exposed and above the level of the bed of the proposed new tracks. Councilman Tiencken inquired what right the Seaboard had to do excavating work without first securing permission. Other members also desired the query answered. Action on the request for lowering of the water main at the expense of the city was deferred until next week and in the meantime the city attorney will look into the law in the matter.

Councilman Perdew said that he had received a letter from Mr. Whipple, of New York, stating that he would send a man here to analyze the water supply for $15 a day and expenses and said that he thought about a week would be required. The idea is to have a complete analysis of the city water, to determine whether there is any bacteria in the water and if so where this contamination is secured, at its source, in the delivery pipe lines, or at the filtering plant. Also analysis of samples of water secured at different points up the river as far as Castle Haynes would be made. It was decided to have the analysis made and the matter was left in the hands of Councilman Perdew.

Councilman P. Q. Moore said that bids were opened at noon for approximately 1,000 square yards of sidewalk improvement for the city during the year 1911 and for grading Brunswick street, between Water and Second, preparatory to its permanent improvement. Bids for the sidewalks of granolithic material were as follows: Meier's Marble and Granite Co., $1.08 a square yard; Wm. L. DeRosset, Jr., 94 cents; Propst Constructing Co., $1.09; Clarendon Construction Co., $1.14; J. W. Turner, $1.10; Edward M. Swann, $1.35. Mr. DeRosset being the lowest bidder the contract was let to him. Bids for grading Brunswick street were received as follows: W. L. Burkheimer, 29 cents a cubic yard: Propst Construction Co., entire work, $1,020; Clarendon Construction Co., $1,373.75; W. L. DeRosset, $945; E. R. Austin, of Goldsboro, $925. The contract was let to Mr. Austin, who was the lowest bidder.

Coupons on general bond fund to the amount of $457.50 were destroyed.

Councilman Perdew suggested that City Attorney McClammy be sent to Philadelphia to confer with attorneys for the Wilmington Sewerage Co., in regard to the papers of the proposed transfer of the plant to the city. The suggestion met with the approval of the other members of the body. Mr. McClammy will leave tonight for Philadelphia and the Council will have a meeting at 12:30 today to go over with him certain phases of the sewerage question. Iredell Meares, Esq., local attorney for the bondholders of the sewerage company, left last night for Philadelphia.

Report was made by Councilman P. Q. Moore that the improvement of Red Cross street is nearing completion and stated he contemplated laying vitrified brick on Grace, between Second and Third streets; on Fifth, between Grace and Walnut, and on Princess, between Fourth and Sixth. The Council approved the contemplated work, and the body then adjourned.

## THE RECORDER'S COURT.

**Negro and Wife Given Sentences on Road and Farm—Both Appeal.**

In the Recorder's Court yesterday morning "Dandy" Johnson, colored, and his better portion, Julia Johnson, were found guilty of being common nuisances. A sentence of three months on the county roads was imposed on "Dandy" and Julia was given six months on the county farm. Both took appeals to the Superior Court. It is likely that the woman will be taken before the Clerk of the Superior Court to be examined as to her sanity.

E. Monroe, colored, was charged with being drunk and disorderly. He was found guilty and was fined $5 and the costs. Jacob Olst, white, was found guilty of committing a nuisancee and judgment was suspended on the payment of costs. Frank Davis and Cyrus Russ, negroes, were tried on charges of assault and battery on a female. They plead guilty and judgment was suspended on payment of costs. The cases came up from Justice Evans' court. Garlis Bowden, colored, was found guilty of an assault and battery on a female, and a sentence of $15 and costs was imposed. The case was from Justice Bornemann's court. One drunk contributed the usual amount.

## STATE CONVENTION TO MEET.

**Local Delegates Will Go to Ayden Next Monday.**

The State convention of the Christian Church convenes next Monday at Ayden, with the opening service at 7:15 P. M., and Wilmington will be well represented. Among those who will leave this afternoon for Ayden are Rev. H. C. Bowden, pastor of the Christian Church here; Mr. D. Rountree, Mr. A. W. Pate, Miss Nina Andrews and Mrs. A. W. Pate, who will deliver the response to the address of welcome to the ladies.

An interesting and instructive programme has been arranged and many good speeches will be delivered during the four days the convention will be in session. The attendance promises to be large and every indication points to one of the most successful meetings in the history of the church. The convention will come to a close Thursday night, November 2nd.

**Mr. "Bob" Hewlette Returns**

Mr. and Mrs. "Bob" Hewlette left Monday for Denver, Col., after a pleasant visit of two weeks to Mr. Hewlette's mother, Mrs. W. S. Hewlette, No. 303 South Fifth street, and brother, Mr. J. H. Hewlette. Mr. Hewlette is a character comedian, author and producer of merry burlesques and musical comedies and goes to Denver, Col., to take charge of a theatre for the season. He and his wife were seen at the Crystal Palace in a sketch last week and pleased immensely the large audience. This was Mr. Hewlette's first visit in 11 years and was most pleasantly greeted by his many friends. Mrs. Hewlette is a native of Iowa and this was her first visit South and she was so well pleased with Wilmington and its delightfully hospitable people that she expects to return next year and spend most of the Summer.

**Real Estate Transfers**

Hinton, for $10 and other considerations, lot No. 18 in the "Bronx."

**Funeral of Mrs. Gaylord**

The funeral of Mrs. Martha Alberta Gaylord, the beloved wife of Mr. George O. Gaylord, whose death occurred Monday night at her home, corner Second and Orange streets, will be held from the First Baptist church, this morning at 11:30 o'clock, conducted by the pastor, Rev. Dr. J. H. Foster. The interment will be in Oakdale cemetery.

## JUST READY TO DROP

When you are "just ready to drop," when you feel so weak that you can hardly drag yourself about—and because you have not slept well, you get up as tired out next morning as when you went to bed, then you need help right away.

Miss Lea Dumas writes from Malone, N. Y., saying: "I was in a badly run-down condition, for several weeks but two bottles of Vinol put me on my feet again and made me strong and well. Vinol has done me more good than all the other medicine I ever took."

If the careworn, haggard men and women, the pale, sickly children and feeble old folks around here would follow Miss Dumas' example, they too, would soon be able to say that Vinol, our delicious cod liver and iron remedy, had built them up and made them strong.

It is a wonderfuly strengthening and invigorating body-builder, and we sell it under an iron-clad guarantee of satisfaction. You get your money back if Vinol does not help you.—Robt. R. Bellamy, Druggist, Wilmington, N. C.

# KING WINTER HAS ARRIVED

**Frosts in This State Monday Night and Forecasts Promise Cooler Weather Today—Coof Last Night Again.**

Though the frost that many Wilmingtonians predicted for Monday night did not materialize, nevertheless, it was uncomfortably cool and the Weather Bureau report shows that the mercury dropped to 50, which was even then a much higher temperature than prevailed in many other Southern cities. At Asheville it was 36, at Atlanta 46, at Charlotte 46, and at Raleigh 44.

The weather forecasts for the Wilmington district and practically throughout the South predict fair and cooler weather and the area of high pressure and low temperature that has prevailed in the Middle West and Central States for the past few days is reported as moving eastward.

It is evident that Winter is here at last, and while Wilmington may get no real cold weather just at this time, other cities in the State and South may not be so forunate and may get a touch of real cold weather. Light frosts prevailed at Raleigh and Charlotte Monday night and throughout the South frosts were reported, varying from killing in some sections to light at others.

And so, as the straw hat retires from the scene, the overcoat is resurrected from its Summer storage place, smelling strongly of camphor balls and resembling a section of sweitzer cheese after the depredations of the zealous and energetic moth. The ice man wanders wearily around the streets with the whistling wind, his countenance long and mournful, while the coal and wood man scuttles to and from his office with his visage bedecked in broad smiles of anticipation. Already a few over-anxious editors have warned their readers that it is time to "put 'em on." Gone are the roses of yesterday and soon the haughty crysanthemum will be nodding her proud blossoms in the Winter air.

Out on the farms the lords of creation are preparing to take a well-earned rest, and the master of the house smiles as he sits in comfort before the blazing logs and watches the fragrant smoke wreathers from his pipe curl to the ceiling, dreaming the meanwhile of an advance in cotton. Outside the bronzed lord of the barnyard struts in all the splendor of his many colors, but watches with a furtive and apprehensive eye the leaves of the calendar as the fateful Thanksgiving draws on apace.

Throughout the country the sportsmen are polishing their guns and going over their equipment with visions of the brown stubble fields and the gray marshes. Already the local squirrel and coon hunters are busy and are bringing in good bags nearly every day.

All indications point to tae fact that King Winter is at hand and that the balmy days of Indian Summer are a thing of the past.

## LOCAL BANKS NOT INVOLVED

**Heath & Co., Failure Creates Comment in This City**

The reports in the morning papers yesterday of the failure of O. P. Heath & Co., of Charlotte, with liabilities of nearly a million dollars and assets of about one-fourth that amount created considerable comment in Wilmington and the incident was quite a topic of conversation on the streets.

One of the Charlotte papers carried a list of the liabilities and among them were several notes held by local banks, amounting in all to $32,500. This also created some comment on the streets and a Star representative last night asked Mr. C. N. Evans, president of the Southern National Bank and the Atlantic Trust & Banking Co., the local institutions which hold most of the above mentioned paper, for a statement. He issued the following, which is self-explanatory:

"The reports in the morning papers stating the liabilities in connection with the failure of O. P. Heath & Co., of Charlotte, are calculated to make the impression that Mr. Heath's firm is indebted to several of the banks of this city, while the fact is none of our banks are concerned as creditors.

"Mr. Heath simply held the office of director in some of the largest and best rated manufacturing concerns in the Carolinas, several of which have dealt with our banks for years and each one of which is independently good for all liabilities. Along with the other directors, all of whom are men of high financial standing, Mr. Heath's name appears as one of the endorsers of notes to the amounts stated in the reports. Under the requirements of the bankruptcy law, Mr. Heath gave the amounts of thes endorsements in his schedule of liabilities, but as stated, our papers are first-class and abundantly secured independent of his name or the outcome of his affairs."

## FUNERAL OF MRS. M. A. GRANT

**Aged Lady Laid to Rest Yesterday Afternoon in Oakdale Cemetery**

At her late residence, No. 111 North Eighth street, yesterday afternoon at 4 o'clock, the funeral of Mrs. Melvina A. Grant, who passed away Monday afternoon, was held. The services were conducted by Rev. John C. Wooten, pastor of Grace Methodist church, and the interment was in Oakdale cemetery.

Many relatives and friends of this most estimable Christian woman were present at the church and cemetery to pay their final tribute of love and the handsome floral designs were silent but eloquent tokens of the respect and esteem in which she had been held by those among whom her long life shed such a beautiful fragrance. The pall-bearers, all grandchildren of Mrs. Grant, were: Messrs. Edgar Hinton, Oscar Hinton, Joseph Hinton, Murray Grant, Oscar Grant and Frank Shepherd.

## FUNERAL OF MR. McCARTNEY

**Held from Family Residence Yesterday Afternoon**

The funeral of Mr. William Mason McCartney, whose death occurred Monday morning after an illness of some length, was held from the family residence, No. 720 Wooster street, yesterday afternoon at 4 o'clock. Rev. Thos. P. Noe, rector of the Church of the Good Shepherd, conducted the services and the interment was in Bellevue cemetery. Quite a number of friends and relatives attended the sad ceremony. The pall-bearers were: Messrs. Lawrence Mintz, J. W. Roderick, J. L. Roderick, Walter Jones, E. S. Brown and G. T. Edens.

**Big Columbus Rally.**

Mr. H. B. Wilkes, of Chadbourn, spent yesetrday in the city in the interest of the great Columbus County Educational and Farmers' Rally to be held in Chadbourn on November 9th. Mr. Wilkes saw a number of the leading Wilmington wholesalers and business men and secured a number of valuable premiums to be offered for the various exhibits, etc., that will be the principal attraction of the day. Mr. Wilkes is enthusiastic over the prospects for a great success of the rally. It is hoped to have special trains and low rates for the celebration and an immense gathering of people.

**Boys Stealing Rides.**

Complaint has been made to the police by the Tidewater Power Company of the practice of boys in different sections of the city of jumping on and off street cars while in motion, with a view of getting the department to take some action in the matter. In the northern section of the city and along Castle street, especially, it is said, the boys are unusually reckless and the company desires to prevent an accident, even though it would not be responsible. It is likely that the police will be instructed to take the names of all offenders seen stealing rides and that warrants will be issued for their arrest.

**Mass Meeting Tonight.**

There will be a meeting of those interested in the recall movement at the Court House tonight at 8:30 o'clock for the purpose of receiving the recall petitions that have been in circulation and of discussing the wishes of the citizens as to what course they desire to pursue in the matter. It is possible that the gathering will decide on a time to present the signed petitions to the City Council. The meeting is an open one and every one is invited to attend.

**Express Body . $800.00**

MR. MERCHANT—If you are interested in saving dollars and cents, we want to talk to you. We can convince you that a "REO" truck will do your hauling and do it cheap. A "REO" truck will do the work of three horse-drawn vehicles—we are prepared to show you this—we don't ask you to take our word for a thing—we can show you. We have on hand a Reo Truck, and want to demonstrate to you just what we claim for it. We claim this—that the Reo will do your work and do it every day in the year, and will save you money. It goes and comes quickly, does not take an expert driver to operate it, and does not lay up in a repair shop every other day. When we sell you a truck we GIVE you service with it—"GIBBES GUARANTEED SERVICE"—this is what counts.

If we did not have a truck in which we had a great deal of confidence we could not do this. We KNOW the "REO" will do your work, and all we want is the chance to demonstrate it to you.

You will find us at 111 Chestnut Street. We will be glad to talk truck to you, and we want to show you. We are at your service.

Point Caswell, N. C., Oct. 23.—Of interest to many friends in Point Caswell and elsewhere was the marriage yesterday at 12 o'clock of Miss Mildred Ward, the attractive daughter of Mr. and Mrs. Bruce Ward, and Mr. Frank Rowe, son of Mr. and Mrs. Lewis Rowe, of Long Creek, which was celebrated in the Point Caswell Baptist church, the pastor Rev. J. H. Beck, performing the ceremony. It was one of the most beautiful of the October weddings. The marriage was attended by a large assemblage of friends and acquaintances of the couple. The maid of honor was Miss Ruby Rowe and the best man, Mr. Willie Zibelin. Immediately after the ceremony the couple went to the home of the bride's parents where they received heartiest congratulations of friends at an elegant dinner served by the parents. Sunday the couple went to the home of the groom's parents where they will reside in the future.

### GREAT INTEREST IN REVIVAL

**Splendid Meeting Being Held at Fifth Street M. E. Church**

A large and attentive congregation heard Rev. C. A. Jones preach a strong and soul-stirring sermon on "Samson" at Fifth Street Methodist church last night. At the close of the sermon a large number went forward and knelt around the alter in response to the invitation. It was a splendid service and the indications are fine for one of the greatest revival that has been held in Wilmington in a long time. The pastor, Rev. G. T. Adams, was forunate in being able to secure Mr. Jones to assist him. A feature of the service is the singing under the direction of Mr. Chas Dushan. Services every morning at 10 o'clock and evening the song service begins at 7:45 P. M. and preaching service immediately following. The public is cordially invited to attend all the services.

**Bumped Into Wrong Pew.**

A sailor who had taken on quite too much "blind tiger" bumped into Mr. W. J. Mintz, mate on the steamer Wilmington, in rounding a corner at Front and Market streets last night about 8 o'clock and then said some uncomplimentary things to Mr. Mintz. The result was that the sailor was given a blow that sent him sprawling on the ground. Patrolman W. G. Brinkley rushed up and placed both under arrest, Mr. Mintz for assault and the sailor for disorderly conduct. Mr. Mintz was recognized for his appearance at trial and the sailor was given berth at the City Hall.

**Funeral of Miss Hughes.**

The remains of Miss Essie Hughes, whose death occurred at the Montrose Sanitarium in Moore county Monday afternoon, were brought to the city last night accompanied by her brother, Mr. B. F. Hughes. The funeral will be held from the family residence, No. 1000 North Eighth street, this afternoon at 3:30 o'clock. Interment will be in Bellevue cemetery.

## LOCAL DOTS.

—Mr. J. M. King reported to the police yesterday that he lost the sum of $290 on Princess street, between Ninth and Tenth, Monday night. He has offered a reward of $50 for its return and hopes to recover it.

**Rev. Mr. Morton in Winston.**

Rev. C. Manly Morton, formerly pastor of Dock Street Christian Church of this city, has accepted the pastorate of the Fourth Street Christian Church, Winston, and entered upon his new duties Sunday. Monday's Winston Journal had the following to say of him: "Rev. C. Manly Morton, of Wilson, who last week accepted the pastorate of the Fourth Street Christian Church, this city, arrived in the city Saturday and on Sunday occupied his pulpit morning and night. The inclement weather affected the attendance but those present were fully repaid. Both messages were practical, instructive and interesting. Mr. Morton is a young man and since he entered the ministry a few years ago he has earned a splendid reputation as an expounder of Holy Writ. The Sentinel bespeaks for him a successful pastorate in Winston-Salem."

**Cow Ordinance as Amended.**

Some one made inquiry at the meeting of Council yesterday afternoon if the amendment to the cow ordinance, up for consideration some time ago, had ever been adopted. It was stated that the amendment had been adopted and is now a law. The ordinance was amended so as to read instead of stable that now cow shall be kept within the city limits in any pen, enclosure, lot, shed or stable within 50 feet of any residence. Dr. Chas. T. Nesbitt, city superintendent of health, stated that he would enforce to the letter the ordinance as amended.

**Concert Saturday Night.**

The indications are that the attendance will be large at the Academy of Music Saturday night for the concert of the Metropolitan Concert Company, which appears here under the auspices of the Boys' Brigade. The company gave a concert in this city last season and greatly pleased the large audience. It gave a concert in Charlotte a few nights ago and the papers of that city speak in the highest praise of the entertainment. An attractive programme has been arranged for the concert Saturday night.

**Officers to Fayetteville**

Policemen W. R. Applebury, T. M. Hall and Leon George left yesterday for Fayetteville, where they will do patrol duty for the city of the Upper Cape Fear during the progress of Cumberland's fair, which begins today and continues through Friday. The officers were sent up at the request of the chief of police of Fayetteville Capt. Robt. Green has also gone to Fayetteville, but he went not as an officer, but to attend the fair and to have a big time.

### TO EXTEND CAPITOL GROUNDS.

**Committee to Appraise and Conedmn Land Appointed.**

Washington, Oct. 23.—Justice Job Barnard, of the District Supreme Court, today named George Truesdell, former district commissioner; Michael I. Weller, real estate dealer, and Thomas H. McKee, former warden of the United States jail here, as a committee to appraise and condemn land in two squares north of the Capitol for an extension of the Capitol grounds.

Congress appropriated $3,500,000 for the land in yearly installments of $500,000. The sum of $1,000,000 is now available.

### STATUE TO POET AND AUTHOR.

**Long Deferred Memorial to William Cullen Bryant.**

New York, Oct. 24.—A bronze statue of William Cullen Bryant, the gift of the Century Association to New York, was unveiled in Bryant Park and accepted by Mayor Gaynor today. The Rev. Dr. Henry VanDyke made the presentation speech on behalf of the association. The erection and unveiling of the statue is the culmination of a movement launched 28 years ago to honor the memory of the poet and journalist.

### DIED.

GAYLORD—At her home in this city on the evening of Monday, the twenty-third of October, Martha Alberta, wife of George O. Gaylord and daughter of the late Dr. John H. Freeman. Services at the First Baptist Church this, Wednesday, morning at half after eleven o'clock. Interment at Oakdale.

## ..Theatrical..

"Seven Days," an alleged farce comedy, was the presentation at the Academy of Music last night, and the comedy part was farcical enough to please most anyone. The scenery was good, the plot mediocre and the acting bordered on the amateurish. As a $1 show the production would have been nearer worth the money. A good house greeted the play.

**"Around the Clock" Friday Night.**

The announcement is made that the big musical comedy success, "Around the Clock" will play an engagement at the Academy Friday night. "Around the Clock" is a musical comedy in two acts and four scenes and will serve to again introduce to our theatre-goers that jolly band of comedians from across the sea, the Ritchie London Comedy Company. There is not an artist in this group of players who is not up to date in everything pertaining to comedy and pantomime. The musical portion of the performance is the work of L. Q. Smith and Sabastian Hiller, while Frank Huffman wrote the book, and their joint effort met with instant success on its first presentation. Special scenery and other effects are carried intact for each act, which enables Mr. Ritchie and his associates to offer a performance perfect in every detail.

Prices for the engagement here will range only to $1, and this is something unprecedented in the musical comedy history of Wilmington, and the concession is only made now on account of the many attractions that have been crowded into this month at the Academy. "Around the Clock" is really a big show, carrying a large company and a car load of scenery and mechanical effects.

**A Big Show on the Way.**

No picture of the struggles of a boy from the country who invades the city in an endeavor to make his fortune has been more graphically drawn than that by Edgar Selwyn in his comedy, "The Country Boy" which Henry B. Harris will present at the Academy next Wednesday night, November 1st. This particular boy is discontented and dissatisfied. He longs for the lights and the crowds. He does not see that in his own little community there are opportunities for success and good living greater than those to be found in the big city. It takes bitter experience to teach him this, but he does learn it. But the story that it provides is one of the most delightful entertainments of many seasons.

**At the Grand.**

Three great pictures of interest will afford plenty of interest for the throngs at The Grand today, headed by the famous Pathe's film of current events. This picture carries the spectator through some interesting and noted occurrences that have transpired during the week including "The Convention of Governors of the United States at Spring Lake, N. J." "The Great Dock Strike," with troops still on guard at the railway stations, "Thos. A. Edison Motoring Through the Alps." "The Australian Battleship Viribus Unitis Successfully Launched," "The Shriners Holding Their Annual Convention in Atlantic City," "Rogers Leaving on His Cross-Countinent Flight," and several other incidents of world importance. Then there will be a Lubin film of "Revenge is Sweet," with another big picture on the same film, while still another will be "From the Field to the Cradle," an educational and industrial film picture displaying the most modern methods of bringing milk to the consumer. Nat Hilt's song will be "Way Down in Georgia."

**At the Bijou.**

The muchly heralded photoplay, "Three of a Kind," will head the Bijou's swell bill today. It will prove one of the biggest novelties in the film line ever offered at the popular theatre and should certainly not be missed. Who has not heard of "Three of a Kind", and has often laughed at some comparison made under the soubriquet? Well, today those who attend the Bijou will get ample and vivid opportunity of seeing it exemplified and that, too, in most interesting and highly entertaining way. It will also prove a big laugh, as its plot is one of pure comedy, mixed liberally with a pretty love story. The picture also possesses the strong feature of presenting a wealth of beautiful scenery, which will greatly delight the eye. It is proclaimed to be the greatest film success ever turned out by the Kalem people. This will only be one of the big film stars for today, however, as there will be plenty of others. There will also be an entirely new musical programme—one that will really fascinate.

**At the Palace—Vaudeville**

A change in programme will be made at the Palace today. The Lewises playing a rural sketch "Grandpa;" their previous presentations have made a hit for light dramatic sketch work and this will no doubt prove equally delightful. The special feature for today is "Mutt & Jeff," in talking photo-plays. This picture was shown yesterday and by special long distance arrangement has been held over to give every one an opportunity to see it, the latest novelty in motion pictures. The other vaudeville acts, comedy juggling and comedy musical complete a programme that is unexcelled heretofore. Matinee begins at 3:30 and the night performances at 8:00 and 9:30.

### BIG COMPANY ORGANIZED.

**Baltimore and Southern Fnancial Interests—Fertilizer Business.**

Baltimore, Oct. 24.—Baltimore and Southern financial interests in conjunction with New York bankers, have organized the Interstate Chemical Corporation of Virginia, with a capitalization of $7,250,000, the board of directors having been elected in New York today.

The concern, which owns several extensive fertilizer plants and a Florida phosphate rock company, will extend some of the existing fertilizer plants and build several new ones.

The company has acquired the interests of W. B. Chisholm, a leading fertilizer operator of Charleston, operating several phosphate plants and fertilizer factories at Charleston, Greenwood and Tampa, the Germofert Manufacturing Company, of South Carolina, and the Tilghman Phosphate Company, of Florida.

It will build additional fertilizer factories immediately at Charlotte, N. C., and Macon, Ga.

The new corporation has been financed by Middendorf, Williams & Company, of Baltimore; John L. Williams & Sons, of Richmond; Redmond & Company, and J. & W. Seligman & Company, of Neew York.

Th board of directors elected today is composed of J. William Middendorf, of Baltimore; E. L. Bemiss and John Skelton Williams, Richmond; Albert Strauss, New York; F. W. Brown, New York; W. B. Chisholm, Charleston, S. C.; W. P. Chisholm, Jr., general manager of the phosphate mining plants of the company in Florida; Charles S. Bryan, New York; Sidell Tilghman and F. B. Tilgman, of Florida; F. R. Pemberton, New York; G. R. Helmer, New York, and A. S. Webb, president of the Lincoln Trust Company, of New York.

### MR. WICKERSHAM'S PLAN.

**Attitude of Attorney General With Reference to American Tobacco Co.**

Washington, Oct. 24.—Attorney General Wickersham is preparing the brief on behalf of the government in connection with the segregation plans proposed by the American Tobacco Company. It is Mr. Wickersham's intention to file the document with the United States Court at New York before the end of the week.

Until announced by the court at the public hearings which are to begin in New York Monday, the attorney general's attitude toward the reorganization plans will not be made public. Department of Justice officials, however, point out that the position of the government is naturally a defensive one and that it is probable the attorney general may not agree with certain features of the plan as now outlined.

Felix Levy, an attorney representing tobacco manufacturers, who oppose the plan, and the officials of several independent tobacco companies, had a lengthy conference with Attorney General Wickersham today and immediately at its close Mr. Wickersham began preparing the statement of his position.

### FIGHTING IN MEXICO.

**Town Destroyed by Dynamite—Battle Lasted Five Hours.**

Mexico City, Oct. 24.—The town of Milpalta, in the Federal district, and within 30 miles of the capital, was almost totally destroyed last night by fire and dynamite by Zapatistas who today were defeated by Federal troops in a battle which lasted for more than five hours near the ruined town.

El Paso, Texas, Oct. 24.—Telegrams received here today from Francisco I. Madero, announce he will be inaugurated President of Mexico November 5th. This is the first definite announcement of his inauguration.

Mexico Ctiy, Oct. 24.—The insurrectos returned the fire of the government troops shot for shot and are said to be now occupying the village of Natcaas, only two miles from Xochimilco. Fearing an attack the residents of the latter town, the source of the capital's water supply are in a state of terror.

**Is the World Growing Better?**

Many things go to prove that it is. The way thousands are trying to help others is proof. Among them is Mrs. W. W. Gould, of Pittsfield, N. H. Finding good health by taking Electric Bitters, she now advises other sufferers, everywhere, to take them. "For years I suffered with stomach and kidney trouble," she writes. "Every medicine I used failed till I took Electric Bitters. But this great remedy helped me wonderfully." They'll help any woman. They're the best tonic and finest liver and kidney remedy that's made. Try them. You'll see. 50c at R. R. Bellamy's.

## SLIGHT DECLINE IN COTTON

**Ruled Steadier After Opening Decline —Went Only Few Points Lower —Ginners' Report Comes Today**

New York, October 24.—The cotton market was less active today, and after an opening decline ruled steadier, with business largely in the way of evening up over the census report tomorrow close was steady, at a decline of [illegible] points.

The market opened easy at a decline of 7 to 11 points, in response to lower Liverpool cables, reports that the South was offering actual cotton freely in Liverpool, Southern selling orders, and local bear pressure. The outlook for generally fair and warmer weather in the south except for [illegible] in North Carolina encouraged selling, but there was a good deal of scattered covering for over the census report, and the decline was checked shortly after the opening around 8.95 to 8.96, or about 12 points net lower, and within a couple of points of the low records of last week.

Business was quiet later, and prices showed a tendency to rally, but after [illegible] up to within a point or two of last night's closing figures eased off slightly from the best on reports of lower southern spot markets and continued predictions of a bearish ginning report tomorrow.

Considerable attention was attracted during the afternoon by the statement of a prominent bear operator predicting that cotton would sell two cents a pound below present prices, owing to the big crop and unfavorable trade conditions, but fresh business on both sides of the market was undoubtedly restricted by uncertainty as to the effect of the census report tomorrow. The local trade is talking of a report of between 7,500,000 and 8,000,000 bales ginned to October 18th, against 5,423,628 last year, and while scattered covering for over the publication of the figures seemed to reflect no modification of sentiment as to the probable volume of ginning, some traders seemed to think that a bearish report had been fully discounted. Private cables from Liverpool attributed the decline there to continental and American selling in connection with a less active business in Manchester, where, it is said, the Chinese troubles are beginning to be felt.

Receipts today, 110,468 bales, against 93,477 last week, 98,484 last year. Today's receipts at New Orleans, 10,453, against 13,241 last year and at Houston, 31,104, against 18,438 last year.

Spot closed dull, 10 points fower. Middling uplands, 9.35; middling gulf, 9.60; no sales.

Futures closed steady.

## NARROW MOVEMENT IN STOCKS

**Trading Fell to Smaller Proportion on Market Yesterday—Public Interest in Market Is Not Aroused**

New York, October 24.—In the absence of the impelling motive for trading on either side of the stock market today movements were of the narrow and fictitious character of the recent sessions. Trading in fact fell to even smaller proportions, with a total of 195,000 shares for the day's business. With each day it becomes apparent that public interest in the market is not being aroused. Trading consequently is restricted largely to professional operations.

The standard stocks ended the day at just about where they began it. Changes were so small that they could be said to indicate no trend in either direction. Reading, Missouri Pacific and Norfolk and Western were the only railroad stocks to manifest decided strength. American cotton oil fell more than two points on expectations of a poor annual report.

Strength in Norfolk and Western resulted from a continuation of the buying of this stock, which has been noted for some time. In this connection there was a revival of the report that the dividend is to be increased. Missouri Pacific's strength was laid to covering of shorts put out at the time of publication of the annual report.

London took only a small part in the day's trading. Transactions for London account were estimated at 8,000 shares, largely on the selling side. The first of the September railroad reports were unfavorable today, Lehigh Valley showing a 400,000 increase in operating revenue, which was balanced by an increase in expense of almost the same amount. The annual report of the Rock Island showed a heavy gain in expenses, although it was more than balanced by the increase in gross earnings. The uniformity with which the railroads of the country, up to a few months ago, at least, increased their expenses, was shown by the combined figures of 78 roads for their last fiscal year. While operating revenue gained less than one per cent. the increase in expenses was more than four per cent. Only eleven roads revealed a reduction in expenses.

Transactions in bonds continue on such a scale as to attract attention. Private sales in some instances are reported as heavier than for some months. Bonds continue on such a scale as to attract attention. Bonds were relatively more active on the exchange today than were stocks, and they showed a steadier tone. Total sales, par value, $2,680,0000. United States bonds were unchanged on call. Total sales for the day were 194,900 shares.

**Averts Awful Tragedy.**

Timely advice given Mrs. C. Willoughby, of Marengo, Wis., (R. No. 1) prevented a dreadful tragedy and saved two lives. Doctors had said her frightful cough was a "consumption" cough and could do little to help her. After many remedies failed, her aunt urged her to take Dr. King's New Discovery. "I have been using it for some time," she wrote, "and the awful cough has almost gone. It also saved my little boy when taken with a severe bronchial trouble." This matchless medicine has no equal for throat and lung troubles. Price 50c and $1.00. Trial bottle free. Guaranteed by R. R. Bellamy.

## WOMAN SUFFRAGISTS

### Adjourned Yesterday at Louisville—New York Headquarters

Louisville, Ky., Oct. 24.—Several hundred weary women, each of them if possible more militant and more enthusiastic as a suffragist than when she came to Louisville last Friday for the 43rd annual convention of the National American Woman Suffrage Association, completed the work of the convention here tonight.

Tonight as the seat of the National headquarters was retained by practically a unanimous vote; important resolutions pledging the association to certain progressive movements were approved and something over $12,000 was secured for the work of the association. Reports of progress in numerous States were heard. Mrs. T. P. O'Connor and Mrs. Emmeline Pankhorst, notable English suffragists, were warmly applauded when they addressed the delegates.

New York for headquarters was selected only after the withdrawal by the Illinois delegation of the invitation to establish headquarters in Chicago.

Notice was given by the association that the aid of political parties in the contest for suffrage would be welcomed. Without embracing the tenets of socialism the convention endorsed the petition by which the woman's national committee of the socialist party seeks enfranchisment of women through an amendment to the Federal constitution and pledged the association to co-operate in securing signatures.

Other resolutions urged ratification by the Senate of President Taft's arbitration treaties approved universal suffrage in the election of United States senators, declared for the same moral standard for men and women and equal penalties for transgressors; favored the erection of a statute of peace at the mouth of Panama Canal, the pardon of Angenela Napolitano by the Canadian government and deprecated any efforts to hamper or defeat honest efforts to enforce the pure food laws.

## ROBT. MATHER PASSES AWAY.

### Prominent in Banks, Railroads and Other Important Concerns.

New York, Oct. 24.—Robert Mather, chairman of the board of directors of the Westinghouse Electric and Manufacturing Company, and a director of many railroads and banks, died at his residence at 5:30 o'clock this morning, after a short illness.

Mr. Mather had been confined to his residence here for several days. Lawyer, railroad official and organizer of great commercial and financial interests, Mr. Mather spent a life of varied activities. He was born at Salt Lake City on July 1, 1859.

Mr. Mather has been chairman of the board of directors of the Westinghouse company since 1909. He was a director of the Chicago, Rock Island and Pacific railroad, vice-president of the St. Louis and San Francisco railroad, general counsel for the Chicago and Alton, a director of the National Bank of the Republic of Chicago, the Mercantile Trust Company of New York, the Equitable Life Assurance Society and the Havana Electric Company and a member of many clubs in Chicago and New York.

## PROGRESSIVE HORRY.

### Modern Industrial School for South Carolina County Town.

Columbia, S. C., Oct. 24.—The foundation of a modern industrial school and the development of a high-class community around it in Horry county, is the purpose of a $50,000 company commissioned today by the Secretary of State, under the name of the "Horry County Industrial School and Develement Company, with well known citizens of Columbia and the Pedee as incorporators.

The tract of land containing 3,000 to 5,000 acres, will be acquired and on this will be established the proposed institution with its necessary agricultural and mechanical undertakings, and homes for such desirable settlers as the school facilities that will be provided may attract.

The corporators are: Messrs. Robert B. Scarborough, Franklin A. Burroughs, D. Allen Spivey and Paul Quattlebaum, of Conway; Mr. Walter F. Stackhouse, of Marion; Dr. L. Dow Suggs, of Loris, and Rev. E. O. Watson, Mr. H. A. Taylor and Mr. Jas. A. Campbell, of Columbia.

## INDIGESTION FOILS SLEUTHS.

### Acute Attack Kills Walsh as Long Pursuit Ends.

New York, Oct. 23.—After following the trail of an alleged bank wrecker across the Atlantic, to South America, and finally back to New York, detectives were on the point of capturing their quarry when the fugitive dropped dead.

This tragic close of a world chase lasting more than a year, came to light when Martin J. Walsh died last night in the apartments of L. H. Snell, in the Sonoma, at Broadway and 55th street. Walsh was accused of having been associated with George H. Coleman, a bookkeeper in the National City Bank of Cambridge, Mass., and two others in stealing $300,000 from a bank. Coleman, who is serving a 20-year term, is said to have made a confession involving Walsh.

The world chase by the detectives led from New York to various European capitals, to Buenos Ayres and then back to New York.

## SHOWED OFF BEFORE GIRLS

### Case of Hazing Reported at Naval Academy

Annapolis, Md., Oct. 24.—A board of investigation was today appointed by the Naval Academy authorities to sift the reported hazing last Sunday of a fourth classman by a member of the second class for the entertainment of two girls who were in the upper classman's company at the time.

According to the stories of the alleged hazing, two fourth classmen were made to go through a number of physical exercises and stunts by a second classman, who was showing two girl friends through Bancroft Hall, the midshipmen's dormitory, on Sunday afternoon.

Academy officials yesterday denied all knowledge of the affair and it is understood that today's action in appointing an investigating board was taken after the newspaper accounts of the matter had been circulated.

## MAN AND HIS WAYS.

### Weighed and Found Wanting by Suffragist Speaker at Louisville.

Louisville, Ky., Oct. 24.—Man and his political ways were weighed and found wanting this afternoon by Mrs. T. P. O'Connor, wife of the Irish leader, who addressed the National Woman Suffrage Convention on the text, "Let Our Watchword be Unity." Mrs. O'Connor replied to what she termed the "old threadbare arguments" against woman suffrage, outlined what she declared were typical abuses of man's powers, and urged her sisters to "stand shoulder to shoulder and march forward together."

"If the majority of men could be convinced that it would be to their personal advantage and to the advantage of the State to accede the vote to women our fight would be at an end," she declared. "When you ask them why we don't vote they advance old threadbare arguments, the first being that all women would vote according to the politics of their husbands. If this be true, why shouldn't a man want two votes instead of one? Another argument is that if women had votes men would no longer pick up their handkerchiefs. I have lived in England 26 years, and during that time I have always picked up my own handkerchief and not had the advantage of a vote either.

"A man left alone in Baltimore this Summer with a negro cook called her into the dining room and said, 'Confound you, Maria, I want my meals cooked better hereafter or out the door you go; I don't propose to pay you $30 a month to send in everything I eat burned to a crisp.' 'Look a here,' retorted Maria, 'don't you talk that way to me, you just 'member who I is; I don't like your tone of voice, and I ain't no trash for you to holler at; you mustn't take me for yo' wife.'

"And finally, the great and overwhelming argument is that to give women votes would destroy man's home. It doesn't matter about women's, man's home is the thing to be considered. Then there is the last weak-kneed argument, the refuge of the pessimist, that already the franchise is too large, and as women are clamoring for a vote the only remedy is to take it away from a certain number of men who have not gone through a collegiate course and cannot stand well in a spelling competition.

"Men are not to be trusted with unlimited power. But the very foundation of the relations of men and women are wholly wrong. The theory is that men toward women are wise noble, generous, chivalrous and just; that we can trust them to make laws for us which will protect our interests; and for the rest we must by tact and diplomacy manage them. Men's great shibboleth, the thing he cries out for, is management. If he is unfaithful to his wife, she hasn't managed him properly. And what woman, I ask you, no matter how good or clever she is, can make a man go her way if he has begun to go the way of another woman?

"Women are brought up by the theory of expecting undying faithfulness, consideration, unselfishness and a taking of all responsibility from her shoulders by man—slowly but surely she has to unlearn this false lesson. There are men in the world, many of them, tenderly chivalrous to women—my own dear father was one of them. But we do not, we must not rely upon sentiment. What we want, and what we demand, is justice. An ounce of justice administered by the law with a judge and a jury behind it is worth all the chivalry in the world. More good has resulted from it than every sleeve worn by a gallant knight in honor of his lady love.

"The laws as they stand today are inadequate. Many of them are markedly unjust to women and no reformation will take place without the franchise. Englishmen have a fine sense of justice; the trouble is not with them but with Englishwomen who have been too long content to submit to injustice. Take, for instance, our divorce laws; a woman in order to divorce her husband must have unfaithfulness and bodily cruelty combined—a man unfaithfulness only. He is at liberty to take a house next door to his wife, put another woman in it, call her by his wife's name; and the wife, because he has not struck her a blow, has no redress. This in the eyes of the law is not cruelty.

"A woman in England can always get better terms, a more generous income, from a quiet separation than from a public divorce. That great empire, king, prime minister, peers, members of Parliament, put a price upon her silence. She is bribed by the State to protect the delinquencies of her husband, and these are the laws framed, passed and jealously guarded by man to whom woman is to trust herself and her children.

"Englishmen are beginning to awake to the fact, however, that women are sentient human beings. Greatly as we shall benefit by the franchise, it is for the imperative welfare of man; and it is the duty of woman to force him to a position where injustice and arrogance and oppression are impossible. This can only come through placing a woman upon equality with man and giving her an interest in public affairs and a vote. No matter how much the domestic woman loves a home, if she were debarred from any authority in that home she would soon lose interest in it. That is the reason why women have not more concern in politics. They are outside the arena of action, they are mere spectators, not participators.

"We may not all have the eloquence of Miss Shaw, nor the energy and sinews of war of Mrs. Belmont, but we can stand shoulder to shoulder and march forward together, and when the gaps rend our ranks, fresh recruits will come forward and close them up For we must never again stop or turn aside in our onward march. But above all let us, with hands across the sea and clasped together in good fellowship here in America, stand in unity."

**CREDIT.**

A business man's greatest asset is his credit

As soon as his credit is gone his business fails.

In these days of the ready interchange of credit information a man's bad credit record follows him everywhere.

On the other hand, a good credit record is just as widely known and the right kind of a bank can assist the right kind of a customer to secure a good credit record.

It is the policy of this bank to assist its customers in a whole-hearted and conscientious manner.

May we not be of assistance to you?

## DR. ANNA HOWARD SHAW.

### President Speaks to National Woman's Suffrage Convention at Louisville.

Louisville, Ky., Oct. 24.—Rev. Anna Howard Shaw, president of the National American Woman Suffrage Association, declared the past 18 months had been ones of great progress for women and in reviewing the recent vote in California, contrasted the sections in which the vote on women's suffrage had been strongest and weakest. She said in part:

"The 18 months which have elapsed since our last convention have been permeated with suffrage activity. Never in an equal length of time has there been such rapid progress in the enlistment of recruits and in the development of active service, and in all the years of our movement there has never been such an army of alert, energetic and enthusiastic young women ready to do and to endure whatever the best interests of the cause demands of them.

"Thus by the aggressive out-of-door campaign the message has been carried to a not unwilling people. We congratulate ourselves for the triumphant vindication of the women of Washington. Never was there a more signal example of manly loyalty to womanhood than in the three to one vote for woman suffrage in Washington in 1910.

"Following close upon it comes the signal victory of California. Here as never before were the friends and foes of woman's freedom more equally lined up. Wherever vice, corruption and cupidity held sway, there the vote for woman suffrage was weak. Wherever refinement, education, industry and self-respecting manhood and womanhood dwelt, there the vote in favor of women was strong. The lines were clearly drawn. It was a contest between the home-building, home-working forces of society and the home-destroying, life-blasting forces. And industry and the home won!

"These are the battles in this war for justice which have been victorious. Others have been and are being fought at the present time with equal courage and against greater odds, and yet the foe is always the same. Oregon, Kansas, Wisconsin, Nevada, Ohio, and New Hampshire, all have their campaigns well in hand, and within another 12 months further victories will be heralded from sea to sea and from Nation to Nation. The struggle for enfranchisement has bound the women of the world together as no other cause could. This will hasten the peace of the world as no Hague Conference or battleclad navy ever can.

"New occasions teach new duties. These victories and the influx of grown women, trained thinkers and trained workers, women educated in the colleges and universities, and women educated in the schools of practical experience and in adversity, all these come to us with the advantage of accumulated wisdom of the ages, impatient of restraint. They cannot realize the vast labor required to change the outlook of a race or Nation. They demand results; and they demand them now. This desire will doubtless lead to many mistakes, but in the long run knowledge and zeal will combine and, together, will complete the victory.

"The awakening of the civic conscience in women, largely through the inefficiency of present methods to overcome the obstacles with which an incompetent or corrupt government nullifies so much of the work of women, with the higher ideals of patriotism which are impelling many of our best citizens to recognize their responsibility to their government, added to the oncoming tide of democracy which is stirring the Nations of the world, all these forces are combining to call women forth to larger service and a completer life.

"The cry is no longer 'Keep us ignorant that we may not know the evils which surround us; let us rest in peace and feel no responsibility,' but rather, 'Give us knowledge and power, that we may stay the forces of evil and transform our seeming safety into actual security.' These are the things which call for changes in our methods of work and in the construction of our organization."

## PRESIDENT TO NAME JUDGES.

### Taft Not Likely to Hasten in Choosing Men for the Vacancies.

Glencoe, Minn., Oct. 24.—When President Taft returns to Washington next month not the least of his labors will be the filling of judicial vacancies which have arisen since the adjournment of Congress in August.

There is practically no chance that a successor of the late Justice Harlan will be selected by the President until he reaches Washington. Mr. Taft has received many suggestions as to the filling the vacancy and many names, including those of Attorney General Wickersham and Solicitor General Lehman, have been mentioned.

In addition to appointing a justice of the Supreme Court. Mr. Taft will probably fill this Winter existing vacancies in New York, Montana, and Wisconsin districts and also a successor to United States Circuit Judge Grosscup, of Chicago.

Glencoe was the first stop on the present schedule today. Between this town and Minneapolis where the President spends the night his train was expected to stop at several cities.

## NEGRO MAKES ESCAPE.

### Surrounded in Swamp in South Carolina—No Attempt.

Orangeburg, S. C., Oct. 24.—Sheriff A. M. Salley returned from Springfield this morning with the blood hounds, after having made a vain but diligent search for the negro who attempted a criminal assault on a white woman near Springfield.

The mob of citizens who made a survey of the whole county for their victim have given up the search. It seems that the negro has gone to parts unknown. It is understood here that the negro did not lay hands on the lady, but only made an insulting proposal to her.

Newport, R. I., Oct. 24.—Death tonight claimed Ida Lewis, keeper of Lime Rock Lighthouse for more than half a century, heroine of numerous thrilling rescues and frequently alluded to as the "grace darling of America." Mrs. Wilson, for her full name was Mrs. Ida Lewis Wilson, was stricken with apoplexy while at her post on Friday night. Ida Lewis was the only woman to be officially appointed to the charge of an American lighthouse.

## REVOLUTIONARY VICTORIES

### Two Important Chinese Towns Captured—General Situation

Peking, Oct. 25.—Two important towns, Kiu Kiang in the province of Kiang-Si, and Sian, capital of Shen-Si province, have fallen into the hands of the revolutionists, very materially extending the area of the uprising, disheartening the government and giving new confidence to leaders in the movement to establish a republic. Sian was regarded as a government stronghold.

Consular reports from Kiu Kiang say the people rose on the eve of October 24th. They burned the Tao Tais Yamen and declared in favor of the rebels. The imperial troops made no serious resistance. General Yin Tchang, who commands the government forces, still remains at Sin Yang Chow. He demands reinforcements before taking the offensive, as he has learned according to his report to the administration here that the rebels are abundantly supplied with artillery and have many adherents.

A steamer from I-Chang crowded with Chinese soldiers reached Wu Chang yesterday under a white flag. Ten metre point, which is being fortified by the rebels, is considered of the greatest strategical importance as it commands the railway and river approaches of Hankow. A message from Hankow says that the revolutionaries have advanced to a point eight miles north of that city, near to where the imperialists in unknown numbers are entrenched, protected by swamps on both sides of the railway.

One of the latest messages from Sian says that the rebels are making overtures to the Mohammedans in the province of Kansu, who have been in open rebellion since August and the sender of the message believes the two revolutionary parties will join forces.

Kai Fong, in the province of Ho Nan, is in a serious position because the local officials have practically abandoned the whole place to the soldiers and police and there is much danger of rioting. Pessimistic reports are at hand from Soo Chow, Tsi Nan Fu and other centers. Numerous sailors have deserted the Chinese gunboats and joined the rebels.

It is officially reported that no news has been received from the tenth division which left Chin Wang Tao, Chi Li, by steamer on October 17th for Hankow. Fears are entertained for the loyalty of the garrison at Kiang Yin, a strong fort on the lower Yang Tse.

## SAVANNAH'S COTTON RECORD.

### 780,000 Bales Received Since Opening of Season—Increase.

Savannah, Oct. 24.—The law price of cotton does not seem to prevent the rushing of the staple to port for export, judging from the receipts of cotton at Savannah this season.

A year ago today Savannah celebrated the arrival of the first million bales of cotton at the port for the season of 1909-10. Today there had been recorded the receipts of 780,000 bales so far this season, an increase compared with last year of 280,000 bales.

The receipts for today were 31,000 bales, being the greatest single day's receipts for the season. The outlook is for very heavy exports during the last few days of October.

**THROUGH YOUR BANK BOOK**

you can step right into prosperity. Don't be one of the men who patronize every place on the street except the bank. They are certain to always remain poor. It just takes a little will power to start saving, and when once begun it's a habit formed just like in anything else. Resolve today to open a savings account with us. One dollar will start it.

4 Per Cent. Interest Paid.

**AT THE SAME OLD STAND**

with the Newest Goods in town. We have fewer pieces of furniture in our stock which were in it October 1st, and have received more new goods since October 1st, than any house in town. Our facilities for buying, our financial ability and standing, the confidence of manufacturers which we enjoy, give us special advantages in buying. We are tied to no one. We can and do buy where the best values are offered.

The advantage we possess for buying certainly puts us in position to offer superior values to our customers. We have special offerings for the next few days in solid mahogany, genuine Circassian walnut, birds' eye maple and quartered oak bed room furniture.

The finest line of Parlor Furniture ever shown in Wilmington. Bernstein Beds, Ostermoore Mattresses, Bloch's Go Carts and Carriages, Hoosier Ketchel Cabinets.

Our reputation for straightforward, honest, upright, honorable transactions have become a matter of history in this community.
